1. BACKGROUND

The UNDP/GEF and Government of Uzbekistan project on “Market Transformation for Sustainable Rural Housing in Uzbekistan” seeks to transform the rapidly growing rural housing sector in Uzbekistan towards a more sustainable and low-carbon development pathway by designing, piloting and scaling-up a green mortgage market mechanism, which will boost the demand for low-carbon housing among the Uzbek rural population. The project objective is to provide Uzbekistan’s rural population with improved, affordable and environmentally friendly living conditions.

The project consists of four inter-linked outcomes. The first and principal outcome is the establishment of the green mortgage scheme to incentivize and eventually scale-up the demand for low-carbon housing. This outcome will be supported and enabled by three complementary outcomes related to strengthening domestic supply chain and capacities for construction of low-carbon housing (Outcome 2), introducing policies and regulations for low-carbon housing and settlements (Outcome 3) and raising public awareness about benefits and advantages of low-carbon housing (Outcome 4).

Component 3 focuses on strengthening and enforcing minimum energy performance standards (MEPS) in housing construction by reviewing existing and development of new building codes required for these needs.

Under the overall supervision of the Project Manager, and the direct supervision of the Task Manager on Building Designs, Codes and Standards, the International Consultant will be responsible for the assistance and support of a hired a National Company team by the Project in development of three illustrated manuals: "Solar radiation calculation methodology for building exterior surfaces"; "Facade shading systems"; "Green Roofs and Facades". S/he also verify them to be incorporated with internationally adopted criteria and requirements on this matter. The International Consultant shall ensure the content of these manuals to be complete, coherent, well-illustrated and convenient in navigation.
