ANNEX 1: SPECIFICATION

Specification

On the procurement of IT equipment for units of State Emergency Service of Ukraine, National Police of Ukraine, and Free Legal Aid System

Background Information

The United Nations Recovery and Peacebuilding Programme is implemented by four UN agencies: the United Nations Development Programme (UNDP), the United Nations Entity for Gender Equality and the Empowerment of Women (UN Women), the United Nations Population Fund (UNFPA), and Food and Agriculture Organization of the United Nations (FAO).

The programme is supported by twelve international partners: the European Union, the European Investment Bank, and the governments of the United Kingdom, Denmark, Canada, the Netherlands, Germany, Norway, Poland, Switzerland, Sweden and Japan.

The United Nations Recovery and Peacebuilding Programme is focused on the main priority needs for stabilization, peacebuilding, economic recovery and governance in eastern Ukraine. Following the escalation of the hostilities across Ukraine, the Programme is now seeking partners to implement rapid response activities to address the urgent needs of war affected populations in their communities and in areas of displacement.

The Programme activities are grouped according to the following key components, which reflect the priority needs of the region:

- Component I: Economic Recovery and Restoration of Critical Infrastructure
- Component II: Local Governance and Decentralisation Reform
- Component III: Community Security and Social Cohesion

In line with the overall UNDP strategic vision articulated in the UNDP Resilience Building and Recovery Programme, the UN RPP is committed to support an effective Government-led response to the current war, to ensure the continued access to basic services for conflict affected populations, and the continued upholding of human rights for all. The present procurement of IT equipment is submitted to support the work of first responders and law enforcement entities, and to boost the capacities of the Free Legal Aid System to support war-affected citizens.

After the sudden escalation of military activities, units of the State Emergency Service of Ukraine (hereinafter SES) and National Police of Ukraine (hereinafter NPU) remained to serve and perform rescue operations in war-torn communities. Working in a highly dangerous environment, under constant threat to their own personal safety, effective communication and proper coordination of activities within the rescue teams are key to ensure their safety and that of the civilians they assist. Due to intensive shelling, settlements in Donetsk and Luhansk oblasts are often left without electricity: to ensure continued operations of communication devices and other rescue equipment, UNDP is seeking to procure portable charging devices that will be handed over to security service providers in war affected settlements of Donetsk and Luhansk oblasts. To further support the effective coordination and action of the first responders, UNDP is also seeking to procure IT equipment for the administrative units of the SES and NPU relocated from Luhansk Oblast, to ensure continued performance of their tasks.

The war also forced employees of the free legal aid system previously active in Donetsk, Zaporizhzhia, Luhansk and other affected oblasts to relocate to transit and hosting areas away from the main fighting. The Coordinating Centre for Legal Aid Provision (hereinafter -CC) has now requested UNDP's support to purchase necessary IT equipment

(laptops and headphones) that will enable their resident and relocated staff to respond to the needs of a growing number of IDPs requiring legal assistance.
