#### **Ministry of Finance International Economic Cooperation Coordination Division (IECCD)/EDFC II PROJECT CYCLE MANAGEMENT AND DOCUMENTATION / DIMENSIONS OF DEVELOPMENT COOPERATION**

#### 1. Background

The Effective Development Financing and Coordination II (EDFC II) project, led by the Ministry of Finance's (MoF) International Economic Cooperation Coordination Division (IECCD) is supporting the Government of Nepal (GoN) through capacity development initiatives to strengthen approaches to mobilizing, coordinating, and effectively managing international development cooperation. Global principles and commitments on aid effectiveness include action at the country level to align aid with national priorities, ensure aid produces intended results, and strengthen mutual accountability. Specific training programs are tailored to the needs of concerned GoN officials and other target groups, to improve the overall national capacity to manage external resources in a more efficient way, in support of the SDGs and Nepal's national development priorities.

Project Cycle Management and Documentation training is designed to provide officials with practical knowledge of the management method, skills and tools for development projects. The extent to which these projects are effectively managed, across the project cycle, as well as with particular attention to project management practices, is of significant consequence in terms of achieving results and improving overall development effectiveness. Yet there are persistent gaps in the practices of project cycle management and documentation, causing delays in implementation, and underutilization of available development finance.

In this context, the EDFC II would like to commission a firm/consultants to undertake training on **Project Cycle Management and Documentation/ Dimensions of Development Cooperation**. The training program will be designed for prospective

Empowered lives.

- Improve participants' understanding/perspective to improve the effectiveness of development cooperation and their alignment with national priorities

## 3. Methodology

The selected firm will have primary responsibility for designing and facilitating the training programs. Participants will contribute to the training delivery by sharing their expectations and requests for skill-building on particular topics (the training provider may wish to survey the participants in advance of finalizing the agenda). learning outcomes, a combination of different methodologies should be employed, such as case studies, group discussions, and exercises. Sessions should be engaging and interactive, with participants encouraged to actively participate in discussions, share their views and experiences, and contribute to a meaningful learning process.

Finalization of the training design will be done in close coordination with MoF/EDFC, to ensure it is tailored to the needs of participants and overall objectives. This will include working with designated MoF/IECCD and other GoN officials to collect relevant government regulations, guidelines and procedures so the training content reflects accurate and real-world scenarios.

A maximum of 50% of the total training time should be devoted to theoretical approaches. The remainder should be dedicated to the specific systems/procedures in the Nepal context of large foreign-aid funded projects, facilitating exchanges of experience between participants, discussing practical challenges and solutions, leading the participants in exercises, and extracting concrete recommendations to improve the effectiveness of the implementation of development projects. A summary of the participants' individual commitments should be provided to MoF/EDFC II following the training programs, together with the results of a satisfaction and learning outcome survey.

**Notes for financial plan:**

- *As the EDFC II project will manage the cost of transportation and accommodation for the Proposer team, those costs should not be included in the Proposer's financial proposal.*
- *Separate DSA cannot be claimed because it will be covered under the Engaged persons' remuneration/fee.*
- *Administrative and other associated costs, if any, should be built into the above headings proportionately.*
- *Training material should include good quality pen, 16 GB pen-drive, note book and handouts. The quality of training materials will be assessed by EDFC II Project.*
- *Proposal will be disqualified if it does not follow the above price schedule format.*

Acceptance of the proposed schedule of work and the timelines is a must and no deviation in the timeline is allowed.
