# **ANNEX 1: SCHEDULE OF REQUIREMENTS**

RfQ22/02463: EU4MD/Development of detailed execution design for revitalization of Cahul municipality Urban Center requires the delivery of the following services as <u>detailed in the Technical specifications and requirements</u> (English and Romanian versions/ Annex 1a).

#### Introduction:

The EU4Moldova: Focal Regions Programme supports the strengthening of economic, territorial and social cohesion in the Republic of Moldova by facilitating sustainable and inclusive local social-economic growth and improving the standards of living of the citizens from the two focal regions: Ungheni and Cahul municipalities and the neighboring localities. The Programme will support the two regions through: making governance more efficient – improving quality of services and necessary infrastructure; incentivizing private sector – increasing investments, improving local economy and creating new jobs; encouraging participatory democracy – involving citizens in democratic governance processes and enhancing their capacities to claim their rights.

The Programme aims to achieve the following objectives:

- 1. To strengthen transparency, accountability of local public authorities and people's participation in local governance processes in the focal regions.
  - 2. To improve citizens' access to quality public services and utilities in the pilot focal regions.
- 3. To create employment opportunities for men and women in the focal regions and improve the attractiveness of the pilot regions for investors and entrepreneurs.
- 4. To promote the smart specialization of the economy of the focal regions through the development of the clustering and value chain approach in key economic sectors.

As a result of Programme implementation, the institutional capacities of local public authorities will increase and get consolidated to support the fulfilment of the integrated and environmentally-mainstreamed local social-economic development strategy (e.g.: CSOs, private sector, etc.), and the planning and monitoring of the social-economic development strategy's implementation will become wider. Citizens will benefit from increased quality, availability and performance of local public services and utilities, including the ones meant for women. Favorable conditions will be created for attracting investments, creating working places and fostering local and social entrepreneurship. The economic performance will also increase in the focal regions as a result of clusters' and specialized zones' creation, according to the smart specialization of the economy.

The Programme has the following partners: EU Delegation in Moldova, UNICEF, Ministry of Agriculture, Regional Development and Environment, State Chancellery, Ministry of Finance, Ministry of Economy and Infrastructure, central and local public authorities from Ungheni and Cahul focal regions, civil society groups and organizations, private sector and business associations, Public Services Agency, E-Governance Agency, Center and South Regional Development Agencies, Congress of Local Authorities in Moldova, Organization for Development of Small and Medium Enterprises Sector, citizens.

Citizens and communities from Ungheni and Cahul regions, local public authorities and civil society organizations will be the final beneficiaries of this Programme.

Please refer to the Annex 1a\_EN and Annex 1a\_RO: TECHNICAL SPECIFICATIONS AND REQUIREMENTS
