

Subject: Clarification No. 1

To the attention of potential suppliers,

Reference is made to the Request for Quotation posted on 13 April 2022 with the subject of "Procurement of centrifuge fan ". with the deadline of 26 April 2022.

We would like to inform you that we have received the below inquiries about the terms of terms of Reference of the RFQ package, and hereby the response is explained as below.

- Q1 .As far as we know, Damandeh does not produce BEF-30 / 10A6S series fans. Maybe you mean the BEB-30 / 10A6S series?

A1. The equivalent model is BEB-30 / 10A6S series by Damande.

- Q2. The RFQ document states that CIP Tehran is to be handed over. You also want the goods of an Iranian company. How we handover Iranian goods to CIP?

A2. Incoterms CIP Tehran means, that goods should be delivered to the designated warehouse in Tehran, which the full address will be provided at the time of delivery. It means goods should be shipped to the Imam Khomeini customs or Tehran West Customs (at CIP terms) by the international supplier, the clearance will be handled by UNDP, and finally, the supplier is in charge of delivering the goods from the Customs to the end-user warehouse.

- Q3 .Our company wants to send its bid to this tender. However, the RFQ document indicates the Iranian Rial as the currency of payment. Will the offer in USD be accepted?

A3. For the international suppliers the purchase order will be issued, and the payment(s) will be made in Euro. For comparison of all offers, UNDP will convert the currency quoted in the offer into the UNDP preferred currency, in accordance with the prevailing UN operational rate of exchange on the last day of submission of bids. Please refer to below website for the updated exchange rates:

<https://treasury.un.org/operationalrates/OperationalRates.php>

Please kindly note that due to the provision of five years after-sale service for the goods, the offerors should have an active agent in Iran to guarantee after-sale service and also make arrangements for delivery of the goods to the end-user.
