| Brief Description of the Required Services<sup>1</sup> | “Strengthen national and local systems to support the effective socio-economic integration of returnees in the Western Balkans”, is a UNDP regional project which aims to enhance the capabilities of the Western Balkan authorities to implement holistic solutions to economic and social empowerment of returnees. By tackling the root causes and negative drivers of migration of Roma and vulnerable populations, the project is contributing to implementation of the broader social inclusion agenda in the Western Balkans. While, UNDP will primarily address local level challenges, the ultimate objective of the project is to translate the tested models into national regulation and public policies and programmes for sustainable reintegration of vulnerable returnees. The project is part of the IPA II Multi-Country Action Programme entrusted to UNDP, the WB and the CoE, to support the fundamental rights of Roma community and other vulnerable. UNDP implements the project in Albania in partnership with Municipalities of Berat, Devoll and Fier. The key outcomes of the projects are:  
**Output 1** - Local returnee integration strategies are developed with selected municipalities foresees development of local reintegration strategies, aiming to improve the livelihoods and social wellbeing of returnees and the broader community, tackle local governance issues, capacity and institutional bottlenecks and gaps of service providers and business ecosystems, which hinder the effective implementation of reintegration policies.

<sup>1</sup> A detailed TOR may be attached if the information listed in this Annex is not sufficient to fully describe the nature of the work and other details of the requirements.
aspirations by equipping returnees with a suite of soft, technical and digital skills to improve their employability in the formal labour market.

The assessments conducted by the project, bring to light concerns as regards the low levels of employability of individuals from Roma and Egyptian minorities. As such, in 2020, the Labour Offices across Albania count 7,570 unemployed Roma and Egyptian job seekers, which form only 9.1% of all unemployed job seekers in the country. At the meantime, on the same year Roma and Egyptian account for a minimum of 0.1% to a maximum of 8.4% of the total number of beneficiaries from different employment programmes offered by Labour Offices.4

While it is true that factors which keep returnee Roma and Egyptian jobseekers unemployed, relate to institutions’ capacities, expertise and resources to address the reintegration processes, including their employment, the inter-sectorial coordination and lack of or inadequate programs and policies that fit to returnee’s needs, it should also be acknowledged that Roma and Egyptian minority on their end, are prone to inattention and discrimination mainly due to limited employability skills including literacy skills.

As such to address the job preparedness issues of the returnees and support their integration into the labour market, this assignment aims to provide social and economic development opportunities to unemployed returnees in Berat, Devoll and Fier, with focus to those from Roma and Egyptian minorities, to get enrolled and complete employability preparedness trainings and enrol them in on-job training, apprenticeship, internship programmes, and other types of employment programs offered by the National Agency for Employment and Skills through the respective Local Labour Offices.

The objective of this assignment is to assess the needs for skill acquisition/job preparedness training and employability of returnees, design job preparedness training courses, conduct training and mentoring sessions in different modalities (online, in person or blended, as appropriate for the beneficiaries) and facilitate their enrolment and completion of on-job training, apprenticeship, internship or any other employment programmes recognised by the Agency for Employment and Skills. The contractor shall identify the beneficiaries by cooperating with UNDP project staff, three Municipalities and the respective Local Labour Offices. The contractor shall liaise with VET service providers, Local Labour Offices and local businesses to ensure enrolment of beneficiaries in different VET or employment programs and provide psycho-social support to them. The contractor is expected to provide its services to returnees in three Municipalities of Devoll, Berat and Fier, between the period of June 2022 – December 2023.

Integrated support to improve employability of Roma and Egyptian returnees in Albania

I. Background

"Strengthen national and local systems to support the effective socio-economic integration of returnees in the Western Balkans", is a UNDP regional project which aims to enhance the capabilities of the Western Balkan authorities to implement holistic solutions to economic and social empowerment of returnees. By tackling the root causes and negative drivers of migration of Roma and vulnerable populations, the project is contributing to implementation of the broader social inclusion agenda in the Western Balkans.

While, UNDP will primarily address local level challenges, the ultimate objective of the project is to translate the tested models into national regulation and public policies and programmes for sustainable reintegration of vulnerable returnees.

The project is part of the IPA II Multi-Country Action Programme entrusted to UNDP, the WB and the CoE, to support the fundamental rights of Roma community and other vulnerable

UNDP implements the project in Albania in partnership with Municipalities of Berat, Devoll and Fier. The key outcomes of the projects are:

Output 1 - Local returnee integration strategies are developed with selected municipalities forecasts development of local reintegration strategies, aiming to improve the livelihoods and social wellbeing of returnees and the broader community, tackle local governance issues, capacity and institutional bottlenecks and gaps of service providers and business ecosystems, which hinder the effective implementation of reintegration policies.

Output 2 - Elements of local returnee integration strategies are implemented in selected municipalities, including innovative activities on livelihoods and skills building, etc aims to demonstrate new approaches to economic empowerment and social cohesion, which will form the main pillars of local reintegration strategies.

Output 3 - Significant number of urgent administrative issues faced by returnees are addressed will seek to identify and develop innovative approaches to public service provision, by developing and utilising a number of digitalized tools and laying the ground for introducing integrated case management.

A substantial part of output 2 anticipates direct support to returnees to improve their employability skills as well as provide support to implement innovative employment programmes such as business start-ups and other productive partnerships with local businesses.

This call for proposals shall focus specifically on "Integrated support to improve employability of returnees" by providing personalized support to individual’s growth, reflective of individual’s education, skills, experience, preferences and professional aspirations by equipping returnees with a suite of soft, technical and digital skills to improve their employability in the formal labour market.

The assessments conducted by the project, bring to light concerns as regards the low levels of employability of individuals from Roma and Egyptian minorities. As such, in 2020, the Labour Offices across Albania count 7,570 unemployed Roma and Egyptian job seekers, which form only 9.1% of all unemployed job seekers in the country. At the meantime, on the same year Roma and Egyptian account for a minimum of 0.1% to a maximum of 8.4% of the total number of beneficiaries from different employment programmes offered by Labour Offices.4

While it is true that factors which keep returnee Roma and Egyptian jobseekers unemployed, relate to institutions’ capacities, expertise and resources to address the reintegration processes, including their employment, the intersectorial coordination and lack of or inadequate programs and policies that fit to returnee’s needs, it should also be
acknowledged that Roma and Egyptian minority on their end, are prone to inattention and discrimination mainly due to limited employability skills including literacy skills.
