Section 2. Instruction to Bidders

A. GENERAL PROVISIO	NS
1. Introduction	1.1 Bidders shall adhere to all the requirements of this RFP, including any amendments in writing by UNDP. This RFP is conducted in accordance with the UNDP Programme and Operations Policies and Procedures (POPP) on Contracts and Procurement which can be accessed at https://popp.undp.org/SitePages/POPPBSUnit.aspx?TermID=254a9f96-b883-476a-8ef8-e81f93a2b38d
	1.2 Any Proposal submitted will be regarded as an offer by the Bidder and does not constitute or imply the acceptance of the Proposal by UNDP. UNDP is under no obligation to award a contract to any Bidder as a result of this RFP.
	1.3 As part of the bid, it is desired that the Bidder registers at the United Nations Global Marketplace (UNGM) website (www.ungm.org). The Bidder may still submit a bid even if not registered with the UNGM. However, if the Bidder is selected for contract award, the Bidder must register on the UNGM prior to contract signature.
2. Fraud & Corruption, Gifts and Hospitality	2.1 UNDP strictly enforces a policy of zero tolerance on proscribed practices, including fraud, corruption, collusion, unethical or unprofessional practices, and obstruction of UNDP vendors and requires all bidders/vendors observe the highest standard of ethics during the procurement process and contract implementation. UNDP's Anti-Fraud Policy can be found at http://www.undp.org/content/undp/en/home/operations/accountability/audit/office_of_audit_andinvestigation.html#anti
	2.2 Bidders/vendors shall not offer gifts or hospitality of any kind to UNDP staff members including recreational trips to sporting or cultural events, theme parks or offers of holidays, transportation, or invitations to extravagant lunches or dinners.
	 In pursuance of this policy, UNDP (a) Shall reject a proposal if it determines that the selected bidder has engaged in any corrupt or fraudulent practices in competing for the contract in question; (b) Shall declare a vendor ineligible, either indefinitely or for a stated period of time, to be awarded a contract if at any time it determines that the vendor has engaged in any corrupt or fraudulent practices in competing for, or in executing a UNDP contract.
	2.4 All Bidders must adhere to the UN Supplier Code of Conduct, which may be found at https://www.un.org/Depts/ptd/sites/www.un.org.Depts.ptd/files/files/attachment/page/pdf/unscc/conduct_english.pdf
3. Eligibility	3.1 A vendor should not be suspended, debarred, or otherwise identified as ineligible by any UN Organization or the World Bank Group or any other international Organization. Vendors are therefore required to disclose to UNDP whether they are subject to any sanction or temporary suspension imposed by these organizations.
	3.2 It is the Bidder's responsibility to ensure that its employees, joint venture members, sub-contractors, service providers, suppliers and/or their employees meet the eligibility requirements as established by UNDP.
4. Conflict of Interests	4.1 Bidders must strictly avoid conflicts with other assignments or their own interests, and act without consideration for future work. Bidders found to have a conflict of interest shall be disqualified. Without limitation on the generality of the above, Bidders, and any of their affiliates, shall be considered to have a conflict of interest

with one or more parties in this solicitation process, if they:

- a) Are or have been associated in the past, with a firm or any of its affiliates which have been engaged by UNDP to provide services for the preparation of the design, specifications, Terms of Reference, cost analysis/estimation, and other documents to be used for the procurement of the goods and services in this selection process.
- b) Were involved in the preparation and/or design of the programme/project related to the services requested under this RFP; or
- c) Are found to be in conflict for any other reason, as may be established by, or at the discretion of UNDP.

 - a) If the owners, part-owners, officers, directors, controlling shareholders, of the bidding entity or key personnel are family members of UNDP staff involved in the procurement functions and/or the Government of the country or any Implementing Partner receiving services under this RFP; and
 - b) All other circumstances that could potentially lead to actual or perceived conflict of interest, collusion or unfair competition practices.

Failure to disclose such an information may result in the rejection of the proposal or proposals affected by the non-disclosure.

4.4 The eligibility of Bidders that are wholly or partly owned by the Government shall be subject to UNDP's further evaluation and review of various factors such as being registered, operated and managed as an independent business entity, the extent of Government ownership/share, receipt of subsidies, mandate and access to information in relation to this RFP, among others. Conditions that may lead to undue advantage against other Bidders may result in the eventual rejection of the Proposal.

BACKGROUND

The Government of Uganda (GoU) through the Ministry of Water and Environment (MWE) in collaboration with the Ministry of Agriculture Animal Industry and Fisheries (MAAIF), and Uganda National Meteorological Authority (UNMA) is currently implementing an eight-year (2017-2025) project titled "Building Resilient Communities, Wetland Ecosystems and Associated Catchments in Uganda". The project is being implemented with financial support from the Green Climate Fund (GCF), United Nations Development Programme (UNDP) and GoU in twenty-four districts of Eastern and Southwestern Uganda. The aim of the project is to enhance resilience of communities and ecosystems to climate change related impacts through wetland and catchment restoration. Among the key activities to be implement in 2022 under the project is the development of 6 Community Based Wetland Management Plans.

Uganda has a long history of wetland uses, which include rice cultivation, livestock grazing, fishing, mining of clay and sand, harvesting medicinal plants and raw materials for craft making. However, in recent years, there has been a dramatic expansion of these activities in most wetlands in the country including the districts of Kisoro, Rukiga, Bushenyi, Butebo, Mbale and Kumi located in the Southwestern and Eastern Uganda. This has been mainly due to the rapid increase in population and the need for development that has resulted in demand for more land to cater for cultivation, livestock and settlements requirements; consequently, creating more pressure on wetlands.

To this effect, the Ministry of Water and Environment has planned to develop 6 Community Based Wetland Management Plans. The management plans will be used to guide key interventions along and within, Nyamirembe wetland in Bushenyi district, Rwabara-Nyundwe wetland in Kisoro district, and Nyangirire wetland in Rukiga district, Komoroto wetland in Butebo district, Namarare wetland in Mbale district and Oladot Kumi district.

These systems were selected based on the 2015 wetland inventory and mapping report and a preliminary assessment carried out by Wetland Management Department (WMD) staff, in consultation with scientists from other line Ministries, local governments and research institutions. This assessment indicated high levels of degradation and a possibility of applying a multiple use system to encompass stakeholders involved in the use of these wetlands. This, it was agreed would best be done through the development of management plans that are, accepted, implemented and monitored by the local users. The development of such management plans would therefore take a form of a participatory process, including consultations with all stakeholders, and mutual agreement on, which areas should be used for activities, who has access to which area, and how to monitor wetland use, access and adherence by wetland users to the management plan.

In order to undertake this activity, the WMD under the project wishes to contract competent consultancy firms to implement this task and produce acceptable and implementable management plans for the six wetland systems. The

consultants are expected to plan and execute stakeholder /community multi-stakeholder processes. The WMD staff will provide technical backstopping and support supervision regarding technical aspects of the management planning and the proposed activities in the six wetlands.

These Terms of Reference provide a general outline of the tasks. On the basis of this, the consultancy firms will be expected to present a proposal on how they would approach the development of viable management plans for the six wetland systems. To ensure timely completion of the management plans, the six wetlands have been divided into two lots as follows.

LOTS	Wetland systems	Location
Lot 1	Nyamirembe wetland	Bushenyi district
	Rwabara Nyundwe wetland	Kisosro district
	Nyangirire wetland	Rukiga district
Lot 2	Komoroto wetland	Butebo district
	Namarare wetland	Mbale district
	Oladot wetland	Kumi district

However, it should be noted that no one firm will be allowed to take up more than one lot.

The overall objective of this assignment is to ensure that all wetlands have clear and well-defined systems and procedures for use and management which ensure that the integrity of the wetland and community livelihoods are maintained.

- Familiarize him/herself with the social, economic and cultural relationships, interactions and resources that may affect effective wetlands management.
- Provide mechanisms and incentives for the active involvement of civil society and private sector including community-based interest groups, as well as regional and international organizations.
- Strategies for systematically collecting detailed and relevant data for monitoring changes in the wetlands, including developing capacity for data collection in the different sectors.
