SFD Procurement Capacity Building

2022

Background

The protracted conflict has made Yemen one of the poorest and most food insecure countries in the world. The conflict has destroyed livelihoods and the ability to purchase food. It has also caused major disruptions in the food supply chain and increases in the price of imported foods, which Yemen is heavily reliant on, resulting in substantial increases in food prices. About two-thirds of the population are food insecure with ten million are at risk of famine, and two million children require treatment for acute malnutrition. Most of the population also lacks access to basic services such as education, health services, water, and sanitation. This is being compounded by the impact of climate-related shocks, including the desert locust plague and recent floods. In addition, the COVID-19 pandemic is also poised to have a devastating effect on an already devastated economy and impoverished population. In response to the protracted conflict and crisis the Yemen Social Protection Enhancement and COVID-19 Response Project (ESPECRP) aims to provide nutrition-sensitive cash transfers, temporary employment, and increased access to basic services and economic opportunities to food-insecure populations affected by COVID-19, Yemen's conflict, and climate-related shocks, as well as to strengthen the capacity of national service delivery institutions. The project is implemented through the same national Responsible Parties (RPs) that implemented the Yemen Emergency Crisis Response Project (ECRP): Social Fund for Development (SFD), the Small and Micro Enterprise Promotion Service (SMEPs) and the Public Works Project (PWP). The project aims to achieve the following results: Enhanced protection of households most at risk of malnutrition with short term and partial complementary services; Enhanced protection of vulnerable working people with temporary employment opportunities; Increased access to basic services and food with improved community assets; and Sustainable economic opportunities generated with increased access to financial and food markets.

EVALUATION CRITERIA

Highest Combined Score (based on the 70% technical offer and 30% price weight distribution)

Technical Proposal (70%)

- ☒ Expertise of the organization 30%
- ☒ Methodology, Its Appropriateness to the Condition and Timeliness 40%
- ☒ Management Structure and Qualification of Key Personnel 30%

A proposal is selected based on *cumulative analysis*; the total score is obtained by combining technical and financial attributes.

A two-stage procedure will be utilized in evaluating the proposals:

The **technical proposal** will be evaluated with a minimum pass requirement of 70% of the obtainable 700 points assigned for technical proposal. A proposal shall be rejected at this stage if it fails to achieve the minimum technical threshold of 70% of the obtainable score of 700 points prior to any price proposal being opened and compared.

Financial Proposal (30%)

Bidder must identify in the proposal the cost per activity as per the following table.

D. Cost Breakdown per Deliverable*

Deliverables <i>[list them as referred to in the RFP]</i>	Percentage of Total Price <i>(Weight for payment)</i>	Price <i>(Lump Sum, All Inclusive)</i>
1		Deliverable 1
2		Deliverable 2
3	
Total		100%

To be computed as a ratio of the Proposal's offer to the lowest price among the proposals received by UNDP.

The **financial proposal** will be opened only for those entities whose technical proposal achieved the minimum technical threshold of 70% of the obtainable score of 700 points and are determined to be compliant. Non-compliant proposals will not be eligible for further consideration.

300 points will be allocated based on financial proposal. In this methodology, the maximum number of points assigned to the financial proposal is allocated to the lowest price proposal. All other price proposals receive points in inverse proportion.

A formula is as follows:

$$p = y (\mu/z)$$

Where:

p = points for the financial proposal being evaluated

y = maximum number of points for the financial proposal

μ = price of the lowest priced proposal

z = price of the proposal being evaluated

The contract shall be awarded to the proposal obtaining the overall highest score after adding the score of the technical proposal and the financial proposal.

The total number of points ("maximum number of points") which a firm/institution may obtain for its proposal is as follows:

Technical proposal: 1,000

Financial proposal: ?

Total number of points: 1,000
