

# UNDP eTendering System

Presentation for suppliers

# Content and Agenda

---

- What is eTendering?
- Main features of the system.
- How to Register in the system.
- How to find tenders, submit and manage bids.
- Important tips to remember.
- How to get support
- Questions and Answers.

# What is eTendering

- Online system used by UNDP for launching tenders, managing solicitation process, receiving bids, and conducting evaluation.
- As of September 1<sup>st</sup>, all UNDP International Competition Tenders valued above USD 150,000 are to be managed via eTendering system.
- Part of UNDP ERP system - PeopleSoft tool managed by Oracle.
- Secure and reliable system, meeting international standards on Information Security Management system through system supplier (Oracle) and internal UNDP global rules and procedures.

# eTendering Architecture Overview

# How to register in the system

[Video guide on how to register - ENGLISH](#)

[Video guide on how to register - FRENCH](#)

[Video guide on how to register - SPANISH](#)

[Video guide on how to register - RUSSIAN](#)

[Video guide on how to register - ENGLISH WITH ARABIC SUBTITLES](#)

# Important points related to registration

- ✓ Company name must be same as in legal registration documents. If not enough space, can be shortened to.
- ✓ If message appears that company name exists, do not create a new profile. Activate existing profile as suppliers should not have duplicate profiles. It is also in benefit of company to have only one profile for better management and control of profiles.
- ✓ Make sure you have full access and control to the email used for registration. **Profile is controlled via email address.** Advisable to use a specific email instead of emails linked directly to company employees, e.g. [UNDPbids.company@company.com](mailto:UNDPbids.company@company.com) This will allow to better control who has access to profile within company and how to auto-forward email notifications as well. This way company manager can control better who has access to eTendering profile, especially when employees leave company.

# Important points related to registration - continued

- ✓ Do not create more than one user. In all cases, at least one user must be associated with primary address.
- ✓ Save email with username and password in case you forget your username.
- ✓ Follow instructions on changing password: clear cache, close browser, type in password correctly and do not copy paste. Log in with temporary password first and then change password.
- ✓ Keep profile active. If you do not sign in for 3 months, your account becomes inactive and needs to be activated by UNDP.

# How to search for tenders and submit and manage offers in the system

[Video guide how to search for tenders and submit offers - ENGLISH](#)

[Video guide how to search for tenders and submit offers - FRENCH](#)

[Video guide how to search for tenders and submit offers - SPANISH](#)

[Video guide how to search for tenders and submit offers - RUSSIAN](#)

[Video guide how to search for tenders and submit offers - ENGLISH WITH ARABIC SUBTITLES](#)

# Important points related to submitting offers

- ✓ If you use advanced search, make sure you clear filter for future searches, otherwise you will not see other tenders.
- ✓ For Request for Proposals (RFP), remember to put price as 1 in the system and upload financial proposal as password protected file. Failure to comply may result in rejection of your offer.
- ✓ Make sure you follow the right steps for uploading documents: upload>browse>open>upload. Then to upload another file: Add new attachment, then again upload>browse>open>upload.
- ✓ Remember to save bid after each file upload to not lose progress in case you are timed out without saving.
- ✓ Group files into zip files so you have less individual files to upload.
- ✓ Start preparing bid response in advance. **DO NOT LEAVE IT FOR LAST MOMENT.** You can upload historical documents (registration documents, financial statements, and save progress).

# Important points related to submitting offers

- ✓ To update bid response, go to event hyperlink, navigate to saved bids link, and start editing bid response. Remember to submit bid once completed.
- ✓ Once bid is submitted, make sure to check and verify you have uploaded all attachments. Check files list in the email confirmation or directly in the system.
- ✓ When editing a bid response, remember to update information properly. For example, if you are updating/changing price, remember to reflect the change in eTendering system also. If you are replacing one of the attachments, remember to remove the old attachment, etc.

# How to get support

- ✓ Consult user guide and videos at UNDP website: <https://www.undp.org/content/undp/en/home/operations/procurement/business/procurement-notice/resources/>
- ✓ Read section 6 of the user guide for FAQs.
- ✓ If support is still needed, contact procurement focal point for the tender you are interested to participate.
- ✓ Never share password or other confidential information when requesting support.

# Questions

---
