<input checked="" type="checkbox"/>	Completed financial proposal
<input checked="" type="checkbox"/>	Completed technical proposal (if applicable)

Need for presence of IC consultant in office:

☒ partial (explain) (partial in project office/Bappenas office)

☐ intermittent (explain)

☐ full time/office based (needs justification from the Requesting Unit)

Provision of Support Services:

Office space: ☒ Yes ☐ No

Equipment (laptop etc): ☐ Yes ☒ No

Secretarial Services ☐ Yes ☒ No

If yes has been checked, indicate here who will be responsible for providing the support services: Liza Martiananda

Name: Bayuni Shantiko

Title: National Project Manager

I. BACKGROUND

Indonesia's biodiversity is an important asset for national development. Diversity at the level of genetics, species, and ecosystems provides great benefits in various aspects of life, especially food, health and energy, as well as industrial basic materials, which aim to meet human needs. Based on the results of a study by Bappenas (2012), the contribution of the Indonesian economy to biodiversity and ecosystems reaches no less than IDR 2,053.8 trillion.

As one of the countries with the richest biodiversity in the world, Indonesia plays a major role in supporting efforts to manage biodiversity at the global level by strengthening its commitment to sustainable biodiversity management as the basic capital for national development. In strengthening this commitment at the national level, Indonesia has designed the Indonesia Biodiversity Strategy and Action Plan (IBSAP) which is an important guide in planning for biodiversity management policies as well as the integration and mainstreaming of these policies in national development plans.

The Government of Indonesia has periodically compiled the IBSAP document since 2003 as a follow-up to the 1993 Indonesia Biodiversity Action Plan (BAPI).

As the 2015-2020 IBSAP implementation period ends, the Government of Indonesia in 2022 is carrying out the formulation of the Post-2020 Biodiversity Management Strategy and Planning Towards Indonesia's 2045 Vision which is formulated in the framework of the Post-2020 IBSAP Document. The formulation of these strategies and action plans will in the process be harmonized with international agreements and other global issues, including the UN-CBD Post 2020 Global Biodiversity Framework, SDGs, climate change issues, the Covid-19 pandemic, and are mainstreamed into the Long-Term Development Plan document (Rencana Pembangunan Jangka Panjang/RPJP) and the Medium-Term Development Plan (Rencana Pembangunan Jangka Menengah/RPJM).

One of the big challenges faced by Indonesia as a mega-biodiversity country is in terms of providing funding needs for ideal biodiversity management in the midst of limited conventional funding sources such as the national state budget (Anggaran dan Pendapatan Belanja Negara/APBN). The existence of support for sustainable biodiversity funding resources is very much needed to overcome the problem of the lack of funding capacity for biodiversity management within the framework of achieving national development targets. Meanwhile, in the long term, the implementation of sustainable funding is urgently needed to increase the effectiveness of biodiversity management and to create alternative funding solutions to reduce dependence on government funding sources. Therefore, optimizing the involvement of the support of funding resources from various stakeholders to actively contribute in ensuring the sustainability of funding for the biodiversity management, both inside and outside the conservation area becomes very important.

In order to provide input for the Government of Indonesia regarding sustainable biodiversity funding policies within the post-2020 framework of conservation of biodiversity, a Funding Resource Mobilization Strategy will be carried out as a supplement to the Post-2020 IBSAP Main Document. In particular, this activity will include the synthesis and formulation of strategies for mobilizing funding from various sources, both government and non-government through a series of coordination carried out in a participatory consultation in-line with the process of compiling the main IBSAP Post-2020 document

II. SCOPE OF WORK, ACTIVITIES, AND DELIVERABLES

The consultant will work with the BIOFIN Project Management Team and UNDP Technical Adviser for Natural Resources and Governance. Consultant will lead formulation and synthesizing the potentially applicable resource mobilization strategies from various sources for sustainable biodiversity management, both from government and non-government through a series of coordination carried out in a participatory consultation in line with the process of compiling the main IBSAP Post-2020 document.

Scope of work of the assignment are as follows:

1. Assessment of the structure and effectiveness of the past and current resource mobilization strategy including the status, policies, and institutions for IBSAP 2015-2020 and identify and map the current or existing expenditure for key ministries relevant to biodiversity

2. Develop the scope and framework of resource mobilization for IBSAP Post-2020
3. Identify and map potential resources i.e., financial from the government and non-state actors, including private and financial sectors as well as non-financial resources such as skill, talent and capacity among others to achieve IBSAP Post-2020 framework
4. Develop initial funding needs under different scenarios (and/or projection) for the achievement of IBSAP Post-2020 goals and targets with consideration where the budget components are the highest and which KL are needed most.
5. Based on activities 2, 3 and 4, the consultant will identify and formulate recommendations for innovative financing for biodiversity management within the IBSAP Post-2020 framework
6. Develop a strategy for mobilizing funding resources (based on result of activities 3 and 4) in achieving IBSAP Post-2020 goals and targets, at least includes the followings (i) generate resources, (ii) reduce/redirect resource causing harm to biodiversity, and (iii) enhance effectiveness and efficiency of resource use
7. Facilitate the coordination process with ministries/agencies, Non State Actor, private sector and/or parties related to the formulation of IBSAP Post-2020 funding strategy
8. Cooperate and play an active role in providing input/recommendations to the Secretariat Team for the preparation of the Post-2020 IBSAP Ministry of National Development Planning/Bappenas in aspects of the Post-2020 IBSAP funding strategy
9. Lead and prepare material including brief summary for Focus Group Discussion (FGD)/Workshop series conducted in line with the assignment.

Expected Outputs and deliverables

Deliverables/ Outputs	Estimated number of working days	Completion deadline	Review and Approvals Required <i>(Indicate designation of person who will review output and confirm acceptance)</i>
<p>1th payment will be made upon submission and approval by UNDP of:</p> <p>Report on</p> <p>(1) Assessment of the structure and effectiveness of the past and current resource mobilization strategy including the status, policies and institutions for IBSAP 2015-2020</p> <p>(2) Report on the scope and resource mobilization framework for IBSAP Post-2020</p> <p>(3) Mapping of potential resource (financial and non-financial) to achieve IBSAP Post-2020 framework</p>	24 days	September 2022	National Project Manager BIOFIN and Technical Adviser for Natural Resources and Governance
<p>2th payment will be made upon submission and approval by UNDP of:</p> <p>(1) Projecting funding needs for the achievement of IBSAP Post-2020 goals and targets</p> <p>(2) Recommendations for innovative financing for biodiversity management within the IBSAP Post-2020 framework</p>	24 days	October 2022	National Project Manager BIOFIN and Technical Adviser for Natural Resources and Governance
<p>3rd payment will be made upon submission and approval by UNDP of:</p>	24 days	December 2022	National Project Manager BIOFIN and Technical Adviser for Natural Resources and Governance

	Final report on Strategy for mobilizing funding resources in achieving IBSAP Post-2020 goals and targets			
III. WORKING ARRANGEMENTS				
<p>Institutional Arrangement</p> <p>Under direct guidance of the project manager and technical advisor for natural resource and governance, the selected candidate will have close coordination with Ministry of Finance and Bappenas. Following rounds of consultation and comments from the team, the consultant will produce a report as above, taking into account feedback from them team</p> <p>Duration of the Work</p> <p>The assignment will be delivered within 6 months in partial scheme with total of 72 days. The payment will be made to the consultant at each payment schedule, upon technical clearance from National Project Manager Biofin and Technical Advisor for Natural Resources Governance.</p> <p>Duty Station</p> <p>The duty station/location for the consultant will be in ill be in project office (Gedung Jasindo) and Direktorat Lingkungan Hidup, Bappenas</p> <p>Travel Plan</p> <p>Travel will be arranged by Hiring Unit which refers to UNDP rules and regulations if Consultant is requested to travel outside Jakarta</p>				

IV. REQUIREMENTS FOR EXPERIENCE AND QUALIFICATIONS				
<p><u>Academic Qualifications:</u></p> <p>Master's degree or equivalent in economic/finance/political science/ public administration/ forestry/biology/environment/social science, or related field.</p> <p><u>Years of experience:</u></p> <ul style="list-style-type: none"> • At least 10 years experiences relevant to issues on finance policy analysis/ climate change/environmental financing/environment and biodiversity/finance mobilization/public policy analysis/good governance/ or other related field • Experience in leading and managing at least 3 (three) projects on sustainable resource management, sustainable finance, biodiversity and/or climate change, or any other similar nature • Experience in working with government and private sector • Knowledge in biodiversity • Experience in facilitating/organizing multi-stakeholders' meetings/stakeholder engagement process and/or similar • Experience in preparing resource mobilization strategy <p><u>III. Competencies and special skills requirement:</u></p> <ul style="list-style-type: none"> • knowledge in the areas of finance policy analysis/ climate change/environmental financing/ environment and biodiversity/finance mobilization/public policy analysis/good governance/and related, policy analysis, development and planning, strategic planning of the projects focused on economic development through providing evidence-based policy advice; 				

- Good inter-personal and team-building skills. proven competency of teamwork, responsibility, decision making, communication, leadership, and problem solving
- Ability to communicate in a clear, concise, and unambiguous manner both through written and verbal communication; to tailor messages and choose communication methods depending on the audience
- Ability to manage communications internally and externally especially with national and regional government, through media, social media and other appropriate channels
- knowledge in formulating development strategies and policies;
- Strong analytical, reporting and writing skills.
- Openness to change and ability to receive/integrate feedback.
- Ability to plan, organize, implement, and report on work.
- Ability to work under pressure and tight deadlines.
- Demonstrates integrity and ethical standards.
- Positive, constructive attitude to work.
- Displays cultural, gender, religion, race, nationality and age sensitivity and adaptability.
- Fluency in English with excellent written communication skills, and strong experience writing reports
- The experience demonstrates focus on achieving quality results and impact

V. EVALUATION METHOD AND CRITERIA

Cumulative analysis

When using this weighted scoring method, the award of the contract should be made to the individual consultant whose offer has been evaluated and determined as:

a) responsive/compliant/acceptable, and

b) Having received the highest score out of a pre-determined set of weighted technical and financial criteria specific to the solicitation.

** Technical Criteria weight; 70%*

** Financial Criteria weight; 30%*

Only candidates obtaining a minimum of 70 point would be considered for the Financial Evaluation

Criteria	Weight	Maximum Point
<u>Technical Criteria</u>	70	100
<p><i>Criteria A: qualification requirements as per TOR:</i></p> <ol style="list-style-type: none"> 1. Master's degree or equivalent in economic/finance/political science/ public administration/ forestry/biology/environment/social science, or related field. 2. At least 10 years experiences relevant to issues on finance policy analysis/ climate change/environmental financing/environment and biodiversity/finance mobilization/public policy analysis/good governance/ or other related 3. Experience in leading and managing at least 3 (three) projects on sustainable resource management, sustainable finance, biodiversity and/or climate change, or any other similar nature 		<p>50</p> <p>10</p> <p>10</p> <p>10</p>

4. Experience in working with government and private sector		5
5. Knowledge in biodiversity		5
6. Experience in facilitating/organizing multi-stakeholders' meetings/stakeholder engagement process and/or similar		5
7. Experience in preparing resource mobilization strategy		5
• <i>Criteria B: Brief Description of Approach to Assignment</i>		30
1. Understand the task and applies a methodology appropriate for the task as well as strategy in a coherent manner		10
2. Important aspects of the task addressed clearly and in sufficient detail		10
3. Logical, realistic planning for efficient project implementation		10
• <i>Criteria C: Further Assessment by interview</i>		20
