

PROJECT TITLE

Long term agreement for repair/review of UN clinic medical equipment

DUTY STATION: The Gambia

DURATION: One year, renewable

PROJECT BACKGROUND:

The UN Clinic in Banjul is a level 1 Clinic according to UN classification of healthcare facilities. The Clinic gives primary health care to UN beneficiaries from Mondays to Fridays except on weekends and Public holidays when the Clinic staff coordinate treatment for UN beneficiaries from UN approved health facilities. For patients with any condition requiring further care including emergencies, primary stabilization is done at the Clinic and we adequately coordinate referrals to higher level.

SCOPE OF WORK

The Biomedical Engineering unit is expected to repair and review the following medical equipment:

| NO. | DESCRIPTION | QUANTITY |
|----------|------------------------------|----------|
| 1 | Nebulizer | 1 |
| 2 | AED machine | 1 |
| 3 | ECG machine | 1 |
| 4 | Oxygen cylinder | 1 |
| 5 | Oxygen concentrator | 1 |
| 6 | Autoclave machine | 1 |
| 7 | microscope | 1 |
| 8 | Reflotron chemistry analyzer | 1 |
| 9 | Bench top centrifuge | 1 |
| 10 | Haemocue | 1 |

EXPECTED OUTPUT

The Unit should submit a comprehensive report about the reviewed medical items.

INSTITUTIONAL ARRANGEMENTS

The UN clinic health manager and team will directly supervise the contractor/repair process.

QUALIFICATION OF SUCCESSFUL CONTRACTOR

The personnel of the Unit doing the repair/review should have a minimum qualification of higher diploma in biomedical engineering, with a minimum of three years' experience.

SCOPE OF BID PRICE AND SCHEDULE OF PAYMENT

| OUTPUT | DURATION | AMOUNT/ % |
|------------------------------------|----------|-----------|
| Submission of repair/review report | 25% | |
| | | |

RECOMMENDED PRESENTATION OF PROPOSAL

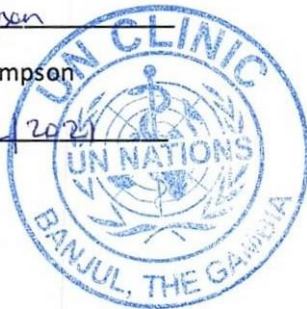

The Unit should be able to produce the following:

- CV of personnel
- Provide technical proposal including work plan and
- Provide a financial proposal
