UNDP Türkiye Country Office

Attachment-I: Answers to Inquiries from Prospective Offerors
**Attachment-I:**

**Answers to Inquiries from Prospective Offerors**

**Question 1:** Regarding the statement in Article 3.5.1.3.2. of the Terms of Reference annexed to the RFQ there is a statement as "Approximately 40-screen-long designs must be created for each section". Is this 40-screen-long interaction expected for each of the 5 fields (which corresponds to 40x5=200 screens), or for the whole training program?

*Answer 1:* Each course will consist of 4-6 modules. Interactive course materials will be designed for each of these modules. According to the structure of the modules, designs with approximately 40 screens are expected. For 1 Course; average of 5 modules x 40 screens = 200 screens per course. This will correspond to a total of 1000 screen designs for 5 courses.

**Question 2:** Regarding the statement in Article 3.5.1.4. of the Terms of Reference annexed to the RFQ there is a statement as "A certain number (15) of the questions will be added as tests that will give the learners an opportunity to try themselves within the application". What exactly is meant by "try themselves within the application"? Will the Contractor be expected to develop a simulated system?

*Answer 2:* The trainings will be conducted modularly on the learning management system. After the content of each training module is completed, assessment tools will be added to the system for the participants to test their learning as self-assessment.
