achieve the minimum technical score indicated in the BDS. When necessary and if stated in the BDS, UNDP may invite technically responsive bidders for a presentation related to their technical proposals. The conditions for the presentation shall be provided in the bid document where required.

- 30.2 In the second stage, only the Financial Proposals of those Bidders who achieve the minimum technical score will be opened for evaluation. The Financial Proposals corresponding to Technical Proposals that were rendered non-responsive shall remain unopened, and, in the case of manual submission, be returned to the Bidder unopened. For emailed Proposals and e-tendering submissions, UNDP will not request for the password of the Financial Proposals of bidders whose Technical Proposal were found not responsive.
- 30.3 The evaluation method that applies for this RFP shall be as indicated in the BDS, which may be either of two (2) possible methods, as follows: (a) the lowest priced method which selects the lowest evaluated financial proposal of the technically responsive Bidders; or (b) the combined scoring method which will be based on a combination of the technical and financial score.
- 30.4 When the BDS specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:

#### Rating the Technical Proposal (TP):

**TP Rating** = (Total Score Obtained by the Offer / Max. Obtainable Score for TP)  $\times$  100

#### Rating the Financial Proposal (FP):

**FP Rating** = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100

#### **Total Combined Score:**

**Combined Score** = (TP Rating) x (Weight of TP, e.g. 70%) + (FP Rating) x (Weight of FP, e.g., 30%)

#### 31. Due Diligence

- 31.1 UNDP reserves the right to undertake a due diligence exercise, also called post qualification, aimed at determining to its satisfaction, the validity of the information provided by the Bidder. Such exercise shall be fully documented and may include, but need not be limited to, all or any combination of the following:
  - a) Verification of accuracy, correctness and authenticity of information provided by the Bidder;
  - b) Validation of extent of compliance to the RFP requirements and

	evaluation criteria based on what has so far been found by the evaluation team;  c) Inquiry and reference checking with Government entities with jurisdiction on the Bidder, or with previous clients, or any other entity that may have done business with the Bidder;  d) Inquiry and reference checking with previous clients on the performance on on-going or contracts completed, including physical inspections of previous works, as necessary;  e) Physical inspection of the Bidder's offices, branches or other places where business transpires, with or without notice to the Bidder;  f) Other means that UNDP may deem appropriate, at any stage within the selection process, prior to awarding the contract.
32. Clarification of Proposals	To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Bidder for a clarification of its Proposal.
	32.2 UNDP's request for clarification and the response shall be in writing and no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP.
	Any unsolicited clarification submitted by a Bidder in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.
33.Responsiveness of Proposal	UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself. A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.
	33.2 If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Bidder by correction of the material deviation, reservation, or omission.
34. Nonconformities, Reparable Errors and Omissions	Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.
	34.2 UNDP may request the Bidder to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Bidder to comply with the request may result in the rejection of its Proposal.
	34.3 For Financial Proposal that has been opened, UNDP shall check and correct arithmetical errors as follows:

	34.4	<ul> <li>a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price; in which case the line item total as quoted shall govern and the unit price shall be corrected;</li> <li>b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and</li> <li>c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail.</li> <li>If the Bidder does not accept the correction of errors made by UNDP, its</li> </ul>
		Proposal shall be rejected.
AWARD OF CONTRACT	Γ	
35.Right to Accept, Reject, Any or All Proposals	35.1	UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Bidder(s) of the grounds for UNDP's action. UNDP shall not be obliged to award the contract to the lowest priced offer.
36.Award Criteria	36.1	Prior to expiration of the proposal validity, UNDP shall award the contract to the qualified Bidder based on the award criteria indicated in the BDS.
37. Debriefing	37.1	In the event that a Bidder is unsuccessful, the Bidder may request a debriefing from UNDP. The purpose of the debriefing is to discuss the strengths and weaknesses of the Bidder's submission, in order to assist the Bidder in improving its future proposals for UNDP procurement opportunities. The content of other proposals and how they compare to the Bidder's submission shall not be discussed.
38. Right to Vary Requirements at the Time of Award	38.1	At the time of award of Contract, UNDP reserves the right to vary the quantity of services and/or goods, by up to a maximum twenty-five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.
39. Contract Signature	39.1	Within fifteen (15) days from the date of receipt of the contract, the successful Bidder shall sign and date the contract and return it to UNDP. Failure to do so may constitute sufficient grounds for the annulment of the award, and forfeiture of the Proposal Security, if any, and on which event, UNDP may award the contract to the Second Ranked Bidder or call for new Proposals.

40. Contract Type and General Terms and Conditions	40.1	The types of contract to be signed and the applicable UNDP Contract General Terms and Conditions, as specified in BDS, can be accessed at <a href="http://www.undp.org/content/undp/en/home/procurement/business/how-we-buy.html">http://www.undp.org/content/undp/en/home/procurement/business/how-we-buy.html</a>

Where a performance security is required, the receipt of the performance security by UNDP shall be a condition for rendering the contract effective.&lt;/th&gt;&lt;/tr&gt;&lt;tr&gt;&lt;th&gt;42.Bank Guarantee for&lt;br&gt;Advanced Payment&lt;/th&gt;&lt;th&gt;42.1&lt;/th&gt;&lt;th&gt;Except when the interests of UNDP so require, it is UNDP's preference to make no advance payment(s) (i.e., payments without having received any outputs). If an advance payment is allowed as per BDS, and exceeds 20% of the total contract price, or USD 30,000, whichever is less, the Bidder shall submit a Bank Guarantee in the full amount of the advance payment in the form available at &lt;a href=" https:="" layouts="" popp.undp.org="" wopiframe.aspx?sourcedoc="/UNDP-POPP_DOCUMENT_LIBRARY/Public/PSU_Contract%20Management%20Payment%20and%20Taxes_Advanced%20Payment%20Guarantee%20Formdocx&amp;action=default&lt;/a"></a>
43. Liquidated Damages	43.1	If specified in BDS, UNDP shall apply Liquidated Damages resulting from the Contractor's delays or breach of its obligations as per the contract.
44. Payment Provisions	44.1	Payment will be made only upon UNDP's acceptance of the work performed. The terms of payment shall be within thirty (30) days, after receipt of invoice and certification of acceptance of work issued by the proper authority in UNDP with direct supervision of the Contractor. Payment will be affected by bank transfer in the currency of contract.
45. Vendor Protest	45.1	UNDP's vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a contract through a competitive procurement process. In the event that a Bidder believes that it was not treated fairly, the following link provides further details regarding UNDP vendor protest procedures: <a href="http://www.undp.org/content/undp/en/home/operations/procurement/business/protest-and-sanctions.html">http://www.undp.org/content/undp/en/home/operations/procurement/business/protest-and-sanctions.html</a>
46. Other Provisions	46.1	In the event that the Bidder offers a lower price to the host Government (e.g. General Services Administration (GSA) of the federal government of the United States of America) for similar services, UNDP shall be entitled to same lower price. The UNDP General Terms and Conditions shall have

precedence.

- 46.2 UNDP is entitled to receive the same pricing offered by the same Contractor in contracts with the United Nations and/or its Agencies. The UNDP General Terms and Conditions shall have precedence.
- 46.3 The United Nations has established restrictions on employment of (former) UN staff who have been involved in the procurement process as per bulletin

## GOVERNANCE AND FINANCIAL MANAGEMENT CAPACITY BUILDING SERVICES OF PAPUA NEW GUINEA'S PROTECTED AREA NETWORK

Type of contract:	Contract for professional service
Project:	Sustainable Financing for PNG's Protected Area Network
Languages Required:	English
Starting Date:	01 November 2022
Duration of Initial Contract:	Approximately 175 working days (as a total for all consultants) over the period of 20 months (including intermittent pauses)
	from the date of contract signing

#### 1. Project Background

Papua New Guinea is endowed with exceptional natural wealth. It contains more than 293 species of mammals (of which 80% are endemic), 813 bird species (more than 50% endemism) and 346 species of reptiles and 371 species of amphibians. The country comprises of the third largest tropical forest in the world, covering 280,000km², over 2.4million km² of ocean including over 7,000km² of coral reefs and 4,200km² of diverse mangrove forest. The coral reefs are of global significance. They lie at the epicentre of the Coral Triangle. These reefs are home to over 1500 species of coral reef fish and at least 514 species of coral. Nevertheless, the IUCN Red List for PNG includes 33 critically endangered species, 56 endangered, 373 vulnerable and 289 near threatened.

The terrestrial environment underpins the country's productive sectors and supports the livelihoods of 80% of PNG's population who live in rural areas. The coastal and marine environment provides food security, important sources of protein, protection from coastal erosion, and livelihoods in tourism and fisheries. Furthermore, the forests as well as islands and reefs provide significant spiritual and cultural importance to the people of Papua New Guineans.

However, the country's natural environment is under threat. Over 50% (or 140,000km²) of PNG's forests lie within the 298 logging concessions. In coastal areas, population growth, with more than 50% under the age of 24, places increased strain on marine resources. Impacts of development activities (in coastal and upstream areas) including increased runoff and habitat fragmentation and degradation; pollution, especially related to runoff from inland mining activities and poor land management practices, and debris and sewage; and impacts of climate change on coastal erosion all pose immediate and dramatic threats to local communities and the natural environment.

Strengthening biodiversity conservation efforts will improve the country's resilience to the impacts of climate change as well as the emerging threats. It will enhance the long-term growth of existing productive sectors, support the growth of new economic opportunity based on sustainable national resource stewardship, transforming the growth path of the country. There is a need for the natural capital wealth to be placed at the centre of the country's economic policy to achieve the objectives in the PNG Protected Area Policy; the Medium-term Development Plan; Vision 2050; the Sustainable Resource Strategy; the Climate Change Act; and the Conservation and Environment Protection Authority Act.

Protected areas across the country neither have sufficient nor reliable funding. With a few notable exceptions, there is no revenue being generated by protected areas for on-the-ground conservation

management. These exceptions include the Kokoda Historical Reserve and the YUS Conservation Area, but both are highly dependent on donor funding. A national assessment of the management effectiveness of the protected areas across the country noted that 83% of protected areas stated that their current budget was an issue and 91% stated that there was no budget security. This is corroborated with the data collected by UNDP which noted that 40 of a total of 59 protected areas are known not to receive any budget.

A similar lack of investment exists for climate change initiatives. A recent estimate for implementing the National REDD+ Strategy calculated that nearly US\$ 100m per annum is required to deliver the strategy over the next 10 years.

The project, **Sustainable Financing of Papua New Guinea's Protected Area Network**, will extend the Government of PNG's ability to fulfil its protected area mandate and implement the Protected Area Policy to: (i) secure stable and long-term financial resources for the management of protected areas across the country; (ii) ensure that these financial resources are allocated to contribute to improving effectiveness of the management of the protected areas across the country; and (iii) ensure that they are managed cost-effectively and efficiently with respect to their conservation and other complementary development objectives. In recognition of this need, the project will assist with the development of a diversified mix of conventional and innovative funding sources and consolidate revenues to finance the ongoing costs of establishing and managing protected areas and assist the Government to establish a Biodiversity Fund – that will be built on a secure, accountable, and transparent financial mechanism, for receiving, administering and disbursing funds. The project will, therefore, result in a system that will provide catalytic and long-term financial support that will lead to stable ecosystems (both within and outside of protected areas), coupled with the social transformations to make that happen (including transforming institutions to become supporters/facilitators of that process, and the establishment of long-term partnerships).

There is a strong demand for national-level financing mechanisms that are able to attract, disburse and report against support to critical locations that protect the unique biodiversity and the natural wealth of the country. PNG's approach to conservation is based on the premise of 'doing conservation differently' and placing people at the heart of conservation, incentivising business models that have a net benefit to the environment, are transformative and demonstrate that conservation and economic development are not conflicting but complementary.

The project has made strong progress to establish the foundations for national system-level financing solutions to support the reduction of the financing gap facing the country's Protected Area network, namely:

- An Institutional and Regulatory Review of protected area management and financing, which
  identifies the key actions to strengthen the institutional responsibilities, regulatory environment
  and capacity needs to lead to increased financial support to protected areas. (<u>Institutional and Regulatory Review</u>)
- A national Protected Area Finance and Investment Plan that identified the funding gaps to the
  existing and future protected areas as well as the identification and assessment of possible
  financial options. (Protected Area Finance and Investment Plan)
- The establishment of an independent *Biodiversity and Climate Fund* to facilitate the receipt, disbursement, and accounting of identified finance solutions. The process to establish the fund is ongoing and is expected to be completed by the end of 2021. (<a href="PNG Biodiversity Fund">PNG Biodiversity Fund</a>)

However, in addition to the need for increased and predictable levels of financing available for Protected Area management, there is a significant need to build the capacities of protected area landowners and users to administer and improve revenue streams for protected areas which currently are well below the

levels required to ensure that the protected areas can effectively serve their long-term function of protecting biodiversity. Given growing donor and private sector interest in protecting nature and addressing climate change, there is potential that the availability of funding for protected areas will increase. The ability to access such funds means that the different groups that manage protected areas will need to develop their financial management capabilities to meet funding eligibility and to ensure that funds are managed effectively. Currently the level of regular and reliable financial support for protected areas is weak and needs to be strengthened to include financial support services, staffing, equipment, communications infrastructure, systems, and skills development. Support is required to strengthen institutional and individual capacities in: a) financial policies and procedures; b) medium-term financial and business planning; c) annual budgeting; d) financial controls (including: budget and budgetary control; books of account; accounting process; revenue process; purchasing and expenditure process; fixed asset management process; stock management process; payroll management process; bank account management; financial reporting; internal controls and audit; risk management and procurement); e) accounting systems; f) financial reporting and auditing, and g) detecting and combatting corruption and embezzlement.

#### 2. Objective

The project requires the services of an organization/company or consortium to develop and implement financial management training to a range of protected area stakeholder groups. This requires a team with both experience of financial and business management as well as the legal requirements for community-based organisations and non-governmental organisations in Papua New Guinea.

In order to the achieve the objectives of the assignment, the following points should be taken into consideration:

- It is expected that this consultancy will conduct consultations with government and non-governmental stakeholders in order receive a clear understanding of their training and capacity needs related to financial governance and management. It is suggested that this consultation take place at the Protected Area Forum, scheduled for the first week in June, where the majority of protected area stakeholders will be present.
