

## **Supply and Delivery of Heavy Duty Wood Chipper**

(Reference: Event ID# 0000013590 under WSM10 business unit)

### **Queries and Responses**

dated 23 September 2022

1. Please confirm if the Chipper can only be electric. It is very unusual.  
Response: Yes, it should be an electric motor, moves 110kw, 1500rpm and its a 3phase 400V/50 Hz.
2. Is it a horizontal grinder type machine?  
Response: Yes, it is horizontal based and recommended a screw.
3. What is more important- the size of the machine or the size of the chip?  
Response: The size of chips is more important.
