A two-stage procedure is utilized in evaluating the submissions, with evaluation of the technical components being completed prior to any price proposals being opened and compared.

The price proposal will be opened only for submissions that passed the minimum technical score of 70% of the obtainable score of 1000 points in the evaluation of the technical component. The technical component is evaluated on the basis of its responsiveness to the Term of Reference (TOR). Maximum 1000 points will be given to the lowest offer and the other financial proposals will receive the points inversely proportional to their financial offers. i.e. \( S_f = 1000 \times \frac{F_m}{F} \), in which \( S_f \) is the financial score, \( F_m \) is the lowest price and \( F \) the price of the submission under consideration.

The weight of technical points is 70% and financial points is 30%.

Submission obtaining the highest weighted points (technical points + financial points) will be selected subject to positive reference checks on the consultant’s past performance.

1) GENERAL BACKGROUND

The World Economic Forum (WEF) is an independent international institution committed to improving the state of the world by engaging business, political, academic and other leaders of society to shape global, regional and industry agendas. The WEF, incorporated as a foundation in 1971 and based in Geneva, Switzerland, is impartial, not-for-profit and is tied to no political, partisan or national interests.

The Global Plastic Action Partnership (GPAP) hosted by the WEF was launched in September 2018 at the Sustainable Development Investment Summit as a lighthouse initiative within the Platform for Shaping the Future of Global Public Goods. GPAP is a public-private platform which aims to tackle one of the most difficult and pressing challenges facing our global commons — plastics pollution — in particular the plastic pollution of rivers, deltas and the ocean.

The vision of GPAP is to partner with countries to champion a shift towards a circular plastics economy by addressing the root causes of plastic pollution, from production to consumption and reuse. GPAP brings together governments, regional bodies, international organizations and businesses, as well as innovators and civil society organizations on an
impartial collaboration platform with the aim to shape a more sustainable and inclusive world through the eradication of plastic pollution. At the global level as well as nationally through National Plastic Action Partnerships (NPAPs), the GPAP brings together policymakers, business leaders and civil society to accelerate plastic action in six ways: informing policy; unlocking finance; transforming behavior; boosting innovation; harmonizing metrics; and promoting inclusivity.

On 23 December 2020, GPAP partnered with the Ministry of Natural Resources and Environment of Viet Nam and WWF-Viet Nam to officially launch a national collaboration platform for plastic pollution action, the Viet Nam National Plastic Action Partnership (NPAP). The Viet Nam NPAP is a national multi-stakeholder cooperation platform and brings together more than 80 member organizations including the Government of Viet Nam, social organizations, the private sector and international development partners. It facilitates initiatives and funding to scale and accelerate in-country partnerships that address plastic waste and pollution, while contributing to the nation’s progress towards achieving many of the UN Sustainable Development Goals. The Viet Nam NPAP is working with the Government of Viet Nam to achieve key national targets as set out in Decision No. 1746/QD-TTg dated December 4, 2019 on approval of the National Action Plan for Management of Marine Plastic Litter by 2030, including reducing plastic waste in marine bodies by half by 2025, reducing marine plastics by 75% and to collect 100% of abandoned, lost, or discarded fishing gear by 2030, and eliminating single-use plastics and non-biodegradable plastic bags from coastal tourist attractions and ensuring that marine protected areas are completely free of plastic waste by 2030. During its first 18 months, the Viet Nam NPAP has commissioned scoping and diagnostic exercises to create an evidence-based fact base for all stakeholders, developed a national roadmap for implementation of the national plastic action plan, developed a gender equality and inclusion strategy, and supported the development of a circular economy framework for the plastics sector.

From August 2022, in strong alignment with the overall circular economy portfolio of the UNDP Viet Nam Country Office (CO), the CO will take on the role of hosting the Secretariat of the Viet Nam NPAP. UNDP will work closely with MONRE, WEF, national and international members of the Viet Nam NPAP and other stakeholders to catalyze and accelerate the plastic circular economy across key sectors.

A Viet Nam NPAP Secretariat Engagement Lead will be mobilized as a key position of the Viet Nam NPAP Secretariat team at the CO, supporting the Viet Nam NPAP Secretariat Manager.

2) OBJECTIVES OF THE ASSIGNMENT

The Viet Nam NPAP Secretariat Engagement Lead supports the Viet Nam NPAP Secretariat Manager to manage key partnerships and preparation and facilitation of governance meetings of the Viet Nam NPAP.
3) SCOPE OF WORK

Duties and Responsibilities
The Viet Nam NPAP Secretariat Engagement Lead’s key roles include:

- Supporting the development and implementation of strategic activities of NPAP in 2022 and beyond that accelerating progress reaching reduction/elimination of plastic pollution leakage goals through policy, business shifts, improved public awareness and sustainable financing mechanisms.
