Individual Consultant: Senior Gender Expert

A. Project Title: Policy Support Programme (PSP-PIF)

B. Project Description

Women constitute 48.7 percent of the total population of Pakistan, yet are deprived of basic needs in terms of health, education, financial access, legal empowerment, and decision-making. The gender gap in Pakistan has widened by 0.7 percent in 2021, ranking very low – 153rd out of 156 countries – on the Global Gender Gap Index 2021. The IMF estimates that women's empowerment can increase GDP by 30 percent. Yet, Pakistan has closed only 31.6 percent of the economic participation and opportunity gap, compared to 33.8 percent in South Asia. The current catastrophic floods in August 2022 with record breaking rainfall in the country, especially in Sindh and Balochistan, will further worsen this gender gap. The death toll has reached 1265, which includes women and children. More than 33 million people have been displaced owing to these floods. The UNDP Pakistan and National Commission on the Status of Women (NCSW) report entitled "Climate Equity: Women as Agents of Change 2022", also confirms that although catastrophic climate change-induced disasters threaten and affect all humanity, the impacts are not gender neutral. Often, biased social attitudes and archaic traditions translate into disproportionate impacts of climate-induced disasters on women. For example, the 2010 floods displaced almost 1.5 million people in Pakistan's province of Sindh, out of which 49 percent were women.

Cognizant of these challenges and opportunities, and given its commitment to gender equality, UNDP Pakistan's forward-looking Country Programme Document (CPD) 2023-2027 has dedicated an outcome - Outcome 4 - to Gender Equality and Women's Empowerment. The CPD 2023-2027 embraces the Portfolio Initiation Framework i.e., conversion of the projects to the portfolios for a transformative development, which leverages dynamic and integrated ways of managing development interventions to achieve systemic change. A portfolio approach implies creating linkages between the horizontal and vertical focuses; where horizontal focus means working directly to achieve any of the CPD outcomes and vertical focus means creating interventions that contribute to more than one CPD outcomes. UNDP will thereby apply the portfolio approach to the horizontal focus in this case - Outcome 4 - triangulating structural transformation, Leaving No One Behind, and building resilience - to achieve outcome 4 of gender equality. For this purpose, UNDP will also use the Social Innovation Platform (SIP) for deep listening, to understand challenges and identify innovative ways of initiating a Gender Equality and Women Empowerment Portfolio at UNDP.

To formulate UNDP Pakistan's Country Programme Gender Equality Strategy Document, UNDP is seeking the services of a Senior Gender Expert.
