1. Submissions should be sent by email to: bid.submission.vn@undp.org no later than:

   23.59 hrs., 14 October 2022 (Hanoi time)

   **With subject line:**

   A-220902 – International Consultant for development of GEF8 Project Identification Form

Submission received after that date or submission not in conformity with the requirements specified this document will not be considered.

**Note:**

- Any individual employed by a company or institution who would like to submit an offer in response to this Procurement Notice must do so in their individual capacity, even if they expect their employers to sign a contract with UNDP.

- Maximum size per email is 30 MB.

- Any request for clarification must be sent in writing, or by standard electronic communication to the address or e-mail indicated above. Procurement Unit – UNDP Viet Nam will respond in writing or by standard electronic mail and will send written copies of the response, including an explanation of the query without identifying the source of inquiry, to all consultants.

- After submitting proposal, bidder should send notification by email (without attachment) to: procurement.vn@undp.org informing that the bidder has submitted proposal. UNDP will not be responsible for the missing of proposal if the bidder does not send notification email to above address.
- Female consultants are encouraged to bid for this required service. Preference will be given to equally technically qualified female consultants.

2. Please find attached the relevant documents:
   - **Term of References** ................................................................. (Annex I)
   - **Individual Contract & General Conditions** ........................................ (Annex II)
   - **Reimbursable Loan Agreement** (for a consultant assigned by a firm) ………… (Annex III)
   - **Letter to UNDP Confirming Interest and Availability** ...................... (Annex IV)
   - **Financial Proposal** ................................................................. (Annex V)

3. **Interested individual consultants must submit the following documents/information (in English, PDF Format)** to demonstrate their qualifications:

   a. **Technical component**:
      - Signed Curriculum Vitae
      - Signed Letter to UNDP Confirming Interest and Availability
      - Copy of 1-3 publications/writing samples on relevant subject.
      - Reference contacts of past 4 clients for whom you have rendered preferably the similar service (including name, title, email, telephone number, address…)

   b. **Financial proposal (with your signature)**:
      - The financial proposal shall specify a total lump sum amount in USD for International Consultant including consultancy fees and all associated costs i.e. airfares, travel cost, meal, accommodation, tax, insurance etc. – see format of financial offer in Annex V.
      - Please note that the cost of preparing a proposal and of negotiating a contract, including any related travel, is not reimbursable as a direct cost of the assignment.
      - If quoted in other currency, prices shall be converted to the above currency at UN Exchange Rate at the submission deadline.

4. **Evaluation**

The technical component will be evaluated using the following criteria:

<table>
<thead>
<tr>
<th>Consultant’s experience/qualification related to the services</th>
<th>Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Postgraduate university degree in a subject related to environment, biodiversity, climate change or a related field</td>

</tr>
</tbody>
</table>

| Total | 1000 |
A two-stage procedure is utilized in evaluating the submissions, with evaluation of the technical components being completed prior to any price proposals being opened and compared. Interview with the shortlisted candidates will be conducted at the technical evaluation stage.

The price proposal will be opened only for submissions that passed the minimum technical score of 70% of the obtainable score of 1000 points in the evaluation of the technical component. The technical component is evaluated on the basis of its responsiveness to the Term of Reference (TOR). Maximum 1000 points will be given to the lowest offer and the other financial proposals will receive the points inversely proportional to their financial offers. i.e. \( S_f = 1000 \times \frac{F_m}{F} \), in which \( S_f \) is the financial score, \( F_m \) is the lowest price and \( F \) the price of the submission under consideration.

The weight of technical points is 70% and financial points is 30%.

*Submission obtaining the highest weighted points (technical points + financial points) will be selected subject to positive reference checks on the consultant’s past performance.*

5. **Contract**

“Lump-sum” Individual Contract will be applied for freelance consultant (Annex II)
“Lump-sum” RLA will be applied for consultant assigned by firm/institution/organization (Annex III)

Documents required before contract signing:

- International consultant whose work involves travel is required to complete the courses on BSAFE which is the new online security awareness training and submit certificate to UNDP before contract issuance.
  
  *Note*: In order to access the courses, please go to the following link: [https://training.dss.un.org](https://training.dss.un.org)

- Full medical examination and Statement of Fitness to work for consultants from and above 65 years of age and involve travel. (This is not a requirement for RLA contracts).

- Release letter in case the selected consultant is government official.

6. **Payment**

UNDP shall effect payments to the consultant by bank transfer to the consultant’s bank account provided in the vendor form upon acceptance by UNDP of the deliverables specified the TOR.

Payments are based upon outputs, i.e. upon delivery of the products specified in the TOR.

If two currencies exist, UNDP exchange rate will be applied at the day UNDP instructs the bank to effect the payment.

7. **Your proposals are received on the basis that you fully understand and accept these terms and conditions.**
ANNEX I

TERMS OF REFERENCE

One International Consultant

Title: Development of GEF8 Project Identification Form on Nature-based solutions in Dong Nai river basin in Viet Nam by a team of one international expert (Team Leader) and two national experts.

Team Leader (20 days)

Duty Station: Home-based, with one mission to Hanoi

Reporting: UNDP Head of Climate Change and Environment

1. Background

With its extensive coastline and deltaic plains, Viet Nam is considered to be among ten most vulnerable countries to climate change globally. Extreme weather events such as typhoons and tropical storms have increased in intensity, magnifying socio-economic and health impacts on rural, urban, coastal, and mountain communities, and endangering critical transportation and drainage infrastructure. Adverse CC impacts threaten both economic development in Viet Nam (VNM) and the wellbeing of the Vietnamese people. More than 12% of the Vietnamese population is projected to be at risk, and economic growth rates face a potential reduction of up to 10% by 2100. Recent analysis indicates that annual CC impacts are costing Viet Nam between 12% of its GDP. At the same time, VNM is a biodiversity hotspot with a high proportion of endemic species. CC threatens this diversity as well as the ecosystems that are crucial for CC resilience, which already manifests itself in increasing biodiversity losses over the last years.

The causal chains of how CC impacts increase pressure on ecological, social and economic systems are often not fully understood. A lack of awareness of such dependencies and inadequate scientific bases on climate risks have resulted in uninformed decision-making based on the “economic growth” paradigm, often leading to severe and further degradation of critical habitats. Despite much progress in the legal framework, systematic anchoring of Nature-based Solutions (NbS) in political and economic affairs remains absent.
Also, the lack of synergies in sectoral plans and policies in response to CC impacts and the inadequate set-up of institutional systems is undermining the effectiveness of climate action. Silos in planning and budgeting for development investments continue to predominate at all levels and across provinces. There is a need to develop effective tools and integrated approaches for planning and monitoring the contribution that NbS can make to CCA. At the subnational level, while integrated governance systems have been introduced - e.g. river basin management organizations - these bodies do not necessarily address multiple development challenges of the sub-regions. Their effectiveness is sub-optimal in reducing the multiple risks of CC on critical ecosystems, vulnerable communities and economic activities.

UNDP wishes to apply a multi-level approach to promote integrated governance of biodiversity and CCA emphasising the effectiveness of NbS for enhanced community resilience and green development pathways with private sector as one of the key actors in the implementation of this approach. This is in line with the UNDP Strategic Plan (2022 – 2025)\(^1\) regarding financing for nature and nature-based solutions and the UNDP Country Program Document (DPO, 2022 – 2026)\(^2\) (Output 2.3 - Gender-responsive, sustainable and innovative solutions and practices in natural resources, biodiversity conservation and nature-based tourism adopted). At the perspective of GEF8 Programming, it contributes to IP No.2 regarding “Ecosystem Restoration Integrated Program”.

The Ministry of Natural Resources and Environment (MONRE) and the United Nations Development Programme (UNDP) are therefore looking for one international expert to help leading the team for preparation of a Project Identification Form on biodiversity/nature-based solutions for Viet Nam to submit to GEF.

2. Objective of the assignment

**Objective of Team Assignment:** the team shall support UNDP to prepare GEF8 Project Identification Form and related documents, contributing to the implementation of IP No.2 “Ecosystem Restoration Integrated Program” (GEF8 Programming).

The expected project will focus on Dong Nai river basin, and:

- **Expected Beneficiaries:** local people, decision makers, Dong Nai River Basin Environment Protection Committee (RBEPC) and Planning Management Board, domestic think tanks and research institutes, Local civil society organisations (CSOs), private sector actors, in particular local SMEs.
- **Nature-based solutions, regional master planning, vulnerability and assessment, inputs to related laws, policies and plans, especially the regional action plan to respond to climate change and/or integrated climate change adaptation planning, monitoring and evaluation plans, etc.**

---

\(^1\) Article 44 (UNDP Strategic Plan 2022 – 2025)

\(^2\) Output 2.3
The team include an international expert and two national experts (one national expert on climate change adaptation and one national expert on data collection). Note: Two national experts have been procured by UNDP).

**Objective of International Expert Assignment:** As the leader of the team, the international expert shall be responsible for guiding and managing the team in order to deliver expected team deliverables with highest quality and in a timely manner.

3. **Scope of work**

**Team Assignment**
The team shall work in close collaboration with each other and with UNDP to deliver the Project Identification Form for the expected GEF8 project based on the template as provided in Annex I. The team scope of work includes but not limited to the followings:

- Review the GEF8 Programming Strategy, UNDP and government priorities in the programming period until 2030 to have insights of expectations of all parties on this Project Identification Form. This may include consultation with related agencies if needed.
- Identify priorities of the government and of ongoing/planned projects on biodiversity/nature based solutions. These might be on governance (policies, institutions, mainstreaming), financing, decentralization/localization, livelihoods, etc.
- Identify geographic gaps – which areas have not been covered by any of the above projects; areas that have already been supported, especially related to NbSs, but are subject to thematic gaps mentioned above; barriers, risks and assumptions to the implementation of NbSs and the projects in Viet Nam, etc.
- Develop a draft Project Identification Form and related documents that addresses all required components as outlined in Project Identification Form template (see annex 1), participate and justify related contents at consultations with UNDP, MONRE, and other stakeholders.
- Provide critical inputs to consultation meetings, document and incorporate feedbacks from consultations and finalize the Project Identification Form and related documents for submission.
- Provide written responses and revisions of the Project Identification Form based on feedbacks received from GEF Secretariat.

**Specific Tasks of Team Members**
The **international consultant** (team leader): 20 working days including 5 days mission to Ha Noi

shall take full responsibility to develop and finalize the Project Identification Form. S/he shall provide guidance, manage the progress, review, oversee and comment on national consultants’ outputs to ensure the quality and the sufficiency of the inputs to the Project Identification Form. Specifically, the international consultant shall perform the following tasks:
1. Work with the national consultants to develop a team workplan, with detailed tasks allocated to each member, key milestones, timelines, deliverables (and guiding notes if needed), ensuring full understanding of assigned tasks of each member.
2. Provide relevant international experiences as needed to enrich the justifications and analysis in the Project Identification Form and related papers;
3. Develop key sections such as General Project Information, Project Summary, Project Description (including theory of changes), Environmental and Social Safeguards, gender and social group considerations, etc.
4. Allocate relevant sections to the national experts that require national experiences and inputs to the Project Identification Form such as part of the project rationale, core indicators, description of project activities, stakeholder engagement, etc.;
5. Manage the progress and quality assure the inputs of the team members;
6. Draft the Project Identification Form with sufficient justification papers;
7. Carry out a 5-day mission to Hanoi for consultations, provide critical inputs which include all presentation materials as needed for related consultation meetings with the government, UNDP, and other relevant stakeholders, finalize meeting notes and incorporate comments/suggestions during the mission. This shall also include a list of follow-up actions for the next steps (development of the full project document).
8. Improve the Project Identification Form, related documents and the checklist for submission to UNDP and the Government.
9. Provide written responses to comments received from GEF Secretariat and finalize the draft Project Identification Form based on received comments.

**National consultant on Climate Change Adaptation (25 days)**

As a team member, under the guidance and supervision of the international expert, s/he shall provide inputs at national level and relevant national inputs to the Project Identification Form. S/he shall perform the following tasks:

1. Contribute to the development of the team workplan and required inputs of each team member, especially required data and field surveys/consultations at target provinces/areas.
2. Provide national inputs (including data) regarding the national context, for example, updated socio-economic data, relevant policies and legal documents on biodiversity/NbS management, etc. The review will ensure alignment with existing related work and national priorities and avoid duplication of efforts.
3. Carry out field surveys/interviews to ensure sufficient information provided to the sections in charge if needed;
4. Develop a number of sections that require national inputs such as background on legal, country context, gaps of policies to be formulated by the project, proposed activities, stakeholder engagement, etc. and provide other relevant inputs as per the agreed workplan.
5. Consult with the international expert and the other team member to finalize required outputs.

6. Provide inputs to the draft Project Identification Form versions and related documents as required by the team leader in order to ensure accurate and sufficient information and analysis described in the draft.

7. Provide technical and translation/interpretation support to the team leader during her/his 5-day mission to Hanoi or her/his online meetings with Vietnamese partners for relevant consultations, and technical support to the preparation of the materials for the consultation meetings, take meeting notes;

8. Support the team leader during the improvement of the Project Identification Form, related documents.

9. Support the team leader to provide written responses to comments received from GEF Secretariat and revise the draft Project Identification Form based on received comments.

**National consultant on data collection (25 days)**

As a team member, under the guidance and supervision of the international expert, s/he shall provide inputs regarding data collection and analysis at field level. S/he shall perform the following tasks:

1. Contribute to the development of the team workplan and required inputs of each team member, especially required data and field surveys/consultations at target provinces/areas.

2. Gather on-going and planned projects and good practices relating to NbS initiatives in Dong Nai River Basin, to identify the needs and the location for piloting.

3. Carry out the inventory of biodiversity/NbS models in Viet Nam and in Dong Nai river basin and collection of required data as inputs to the Project Identification Form. The data may include but not limited to following categories: Latest data on population; GDP of the selected provinces/basin by year; Typical climate change impacts shown by number; Forest area by year; Land use data by year; Nature-based solutions have been applied (location, contact persons if any); Local initiatives/livelihoods/models; Water management structures and related local practices, etc.

4. Analyze the collected data as requested and based on the guidance of the team leader.

5. Develop a number of sections that require the analysis of the collected data as requested by the team leader;

6. Consult with the international expert and the other team member to finalize required outputs.

7. Provide relevant inputs to the draft Project Identification Form and related documents as required by the team leader in order to ensure accurate and sufficient information and analysis imbedded into the draft.
8. Provide relevant technical support to the team leader during the consultation process which shall include inputs to the presentations and other related documents as needed for the consultation.

9. Provide relevant support to the team leader during the improvement of the draft Project Identification Form, related documents.

10. Support the team leader to provide relevant written responses to comments received from GEF Secretariat and revise the draft Project Identification Form based on received comments.

4. **Duration of assignment, duty station and Expected places of travel**

The duration of the assignment is from October 2022 to Feb 2023.

- International Expert: 20 days, including a 5-day mission to Ha Noi, Viet Nam.

**Duty Station:** Home-based, Ha Noi.

The international bidders must include international and national travel costs in his/her financial proposal.

5. **Deliverables**

All the products shall be in English.

The templates of the Project Identification Form is described in **Annex 1** and may be subject to change. Revised templates (if any) will be shared to the consultants to ensure that his/her work is compliant with UNDP/GEF requirements.

The Project Identification Form must meet GEF’s requirements and demonstrate GEF’s eligibility criteria including incrementality, technical feasibility, mobilization of co-financing, etc.

6. **Provision of monitoring and progress control**

The International Consultant and the National Consultants, as a team, will work closely with and under the guidance of UNDP and MONRE and in close consultation with UNDP Regional Technical Advisor.
The selected consultants will have regular discussions with the responsible staff of UNDP Viet Nam and MONRE. The team leader is required to regularly report to UNDP Viet Nam on the progress of the work based on the agreed work-plan.

The deliverables shall be submitted to MONRE and UNDP for review. The draft and final Project Identification Form shall be technically cleared by UNDP prior to the submission to donor.

7. **Administrative support and reference documents**

   Administrative support will be provided by UNDP and MONRE. Copies of relevant documents and templates will be made available to the consultants upon commencement of the assignment. UNDP and MONRE will also facilitate all logistical arrangements for meeting with core project partners in Viet Nam.

8. **Qualification and work experience**

   **International Consultant**

   The requirements of the International Consultant are as follows:

   - Postgraduate university degree in a subject related to environment, biodiversity or climate change or a related degree.
   - At least 10 years of experience in environment, international waters, climate change, natural resources or biodiversity.
   - Proven experience in GEF project formulation process and requirements, with demonstrable knowledge and skills on drafting, reviewing and finalizing GEF Project Identification Form documents.
   - Relevant experience in developing countries, preferably in Viet Nam.
   - Demonstrated communication skills and command over writing professional reports/project documents in English.

   **National Consultant on climate change adaptation**

   - Postgraduate degree or equivalent education in the disciplines of economics, environmental science/management, public administration, climate change or related field;
   - At least 10 years of demonstrated experience in climate change and environment projects with the Government or Donors in Viet Nam, preferably policy consultancy and adaptation planning;
   - Good knowledge of the legislative and policy aspects of the adaptation framework in Viet Nam, including legal and policy enforcement at national and subnational levels.
   - Proven experience in project formulation and management of GEF projects. Relevant experience with GEF and UNDP projects will be an advantage.
• Demonstrated track record in working with the government, private sectors, NGOs, and other key stakeholders

National Consultant on Data Collection and Analysis

• Master Degree in climate change, environmental management or a relevant field;
• At least 5 years professional experiences in natural or earth related sciences, natural resource management, data collection and manipulation
• Good knowledge and proven experience in climate change data analysis, especially vulnerability, impact assessment, mapping.
• Practical experience in promoting application of climate change scenario in planning with relevant ministries and branches.
• Ability to write synthesis report in English by provision of two report samples
  Computer literacy especially in the use of applied computers (Microsoft Office);
  Familiar with GIS and map is advantage.

9. Review time required and payment term

• First payment of 10% of the contract value will be paid upon submission and acceptance of the workplan
• Second payment of 40% will be paid upon submission and approval of the draft Project Identification Form and related documents.
• Last payment of 50% will be paid upon submission and approval of the final Project Identification Form and written responses to comments by donors.

10. Consultants presence required on duty station/UNDP premises

### Project Summary***
Provide a brief summary description of the project, including: (i) what is the problem and issues to be addressed? (ii) what are the project objectives, and if the project is intended to be transformative, how will this be achieved? iii), how will this be achieved (approach to deliver on objectives), and (iv) what are the GEBs and/or adaptation benefits, and other key expected results. The purpose of the summary is to provide a short, coherent summary for readers. The explanation and justification of the project should be in section B “project description”. *(max. 250 words, approximately 1/2 page)*

***POP-UP material start
Please provide a summary of the proposed project. A brief description of what is the problem to be addressed; what is the project’s objective; how is this objective to be achieved; and what are expected outcomes (GEBs and/or adaptation benefits). If the project is an NGI, please briefly mention the financial structure of the project. Be explicit about the project’s location, and the sectors it covers. If the project is intended to be transformative, or innovative, briefly explain how this ambition will be achieved, and how barriers or enablers will be addressed.

PROJECT OUTLINE

PROJECT RATIONALE

Briefly describe the current situation: the global environmental problems and/or climate vulnerabilities that the project will address, the key elements of the system, and underlying drivers of environmental change in the project context, such as population growth, economic development, climate change, sociocultural and political factors, including conflicts, or technological changes. Describe the objective of the project, and the justification for it.

(Approximately 3-5 pages) see guidance here***

***POP-UP material start

To develop the project rationale:

- Develop simple narratives of how an uncertain future could unfold, based on an understanding of trends and interactions between the key elements of the system and its drivers.

- Describe the baseline in the absence of the project, and identify the outcomes that the project needs to achieve, how these will change the baseline, and what the key barriers and enablers are to achieving those outcomes.

- Briefly explain why this particular project has been selected to address the drivers of environmental degradation and/or climate vulnerabilities in preference to other potential options, and how its outcomes will endure in the face of changes in the drivers described in the future narratives.

- Describe the relevant stakeholders, private sector, and local actors and their roles in the system, and how they will be critical to deliver on the GEBs, adaptation benefits, and other proposed outcomes.

- The description should include: how the project will fit within the current landscape of investments; how the project will build on the baseline and ongoing investments, both GEF and non-GEF, and on lessons learned from previous projects in the country and region, and more widely; and how this approach fits with country priorities.

- If this is an NGI, please include a brief explanation on the financial barriers and how the project- and the proposed financial structure- responds to the financial barriers.

***POP-UP material end
PROJECT DESCRIPTION

Project Description
This section asks for a theory of change as part of a joined-up description of the project as a whole. The project description is expected to cover the key elements of good project design in an integrated way. It is also expected to meet the GEF's policy requirements on gender, stakeholders, private sector, and knowledge management and learning (see section D). This section should be a narrative that reads like a joined-up story and not independent elements that answer the guiding questions contained in the CN guidance document. (Approximately 3-5 pages) see guidance here***

***POP-UP material start
Develop the project description to cover the following points, in a joined-up way, not as a series of responses to the individual points; this description should take into account the GEF’s policy requirements (in section D). For example, by weaving into the description how gender issues will be addressed in the project, rather than describing gender as a standalone point. The theory of change will help in joining up the other key elements of good project design:

• Provide a concise account of the theory of change that describes the project’s logic for addressing the problems described in Section A and achieving the intended global environmental benefits. Include a diagram to help show the overall project’s logic, outputs, and outcomes.
  o The theory of change should provide an “explicit account of how and why the proposed interventions would achieve their intended outcomes and goal, based on outlining a set of key causal pathways arising from the activities and outputs of the interventions and the assumptions underlying these causal connections”.
  o The project logic should show how the project would ensure that expected outcomes are enduring and resilient to possible future changes in the drivers identified in the simple future narratives (section A), and to the effects of any conflicting policies (section C).

• Briefly describe in more detail the project components (interventions and activities) identified in the theory of change. Provide brief information on each intervention, the main thrust and basis (including scientific) of the proposed solutions, how they address the problem, their justification as a robust solution, and the critical assumptions and risks to achieving them.

---

• Explain how the project will generate global environmental benefits and/or adaptation benefits which would not have accrued without the GEF project (additionality).

As part of the project description:
• Indicate how relevant stakeholders will contribute to developing and implementing the project, and their respective roles, and how they will benefit from the project to ensure that the global environmental benefits and/or adaptation benefits will be enduring (co-benefits).
• Explain how the project will generate knowledge, how that knowledge will be managed and exchanged, and how lessons learned will be captured to benefit future projects.
• Explain how this project will improve or develop national policies, including an improved alignment of existing policies (policy coherence).
• If the project is specifically intended to be transformative, or innovative, explain how scaling up could be achieved.

Coordination and Cooperation with Ongoing Initiatives and Project.
Does the GEF Agency expect to play an execution role on this project?
☐ Yes    ☐ No

If so, please describe that role here. Also, please add a short explanation to describe cooperation with ongoing initiatives and projects, including potential for co-location and/or sharing of expertise/staffing (max. 500 words, approximately 1 page)

NGI (only): Justification of Financial Structure

Please describe the financial structure and include a graphic representation. This description will include the financial instrument requested from the GEF and terms and conditions of the financing passed onto the Beneficiaries.

Risks to Project Preparation and Implementation

Summarize risks that might affect the project preparation and implementation phases and what are the mitigation strategies the project preparation process will undertake to address these (e.g. what alternatives may be considered during project preparation—such as in terms of consultations, role and choice of counterparts, delivery mechanisms, locations in country, flexible design elements, etc.). Identify any of the risks listed below that would call in question the viability of the project during its implementation. Please describe any possible mitigation measures needed. (The risks associated with project design and Theory of Change should be described in the “Project description” section above).

The risk rating should reflect the overall risk to project outcomes considering the country setting and ambition of the project. The rating scale is: High, Substantial, Moderate, Low.

**SAFEGUARDS RATING (CN LEVEL):**

**ALIGNMENT WITH GEF-8 PROGRAMMING STRATEGIES AND COUNTRY/REGIONAL PRIORITIES**

Describe how the proposed interventions are aligned with GEF-8 programming strategies and country and regional priorities, including how these country strategies and plans relate to the multilateral environmental agreements.

Confirm if any country policies that might contradict with intended outcomes of the project have been identified, and how the project will address this.

*(max. 500 words, approximately 1 page)*

**POLICY REQUIREMENTS**

**Gender Equality and Women’s Empowerment***:

We confirm that gender dimensions relevant to the project have been addressed as per GEF Policy and are clearly articulated in the Project Description (Section B).

☐ Yes  ☐ No  (If −and only if− NO is selected, a pop-up field should open for the Agency to provide an explanation)

***POP-UP material start

Please upload to the portal documents tab any gender analysis or equivalent socio-economic assessment that identifies and describes any gender differences, gender
differentiated impacts and risks, and opportunities to address gender gaps and promote the Empowerment of Women that may be relevant to the proposed activity; this should include any corresponding gender-responsive measures to address differences, identified impacts and risks, and opportunities through a gender action plan or equivalent. If gender-responsive measures have been identified (mostly relevant at project development phase, the results framework or logical framework include actions, Gender-Sensitive Indicators and sex disaggregated targets.

***POP-UP material end

Stakeholder Engagement

We confirm that key stakeholders were consulted during CN development as required per GEF policy, their relevant roles to project outcomes and plan to develop a Stakeholder Engagement Plan before CEO endorsement has been clearly articulated in the Project Description (Section B).

☐ Yes ☐ No (If –and only if— NO is selected, a pop-up field should open for the Agency to provide an explanation)

Were the following stakeholders consulted during project identification phase:
Indigenous Peoples and Local Communities? ☐ Yes ☐ No
Civil Society Organizations? ☐ Yes ☐ No
Private Sector? ☐ Yes ☐ No

Provide a brief summary and list of names and dates of consultations

(Please upload to the portal documents tab any stakeholder engagement plan or assessments that have been done during the CN development phase.)

Private Sector

Will there be private sector engagement in the project?
☐ Yes ☐ No

And if so, has its role been described and justified in the section B project description?
☐ Yes ☐ No

Environmental and Social Safeguards

We confirm that we have provided indicative information regarding Environmental and Social risks associated with the proposed project or program and any measures to address such risks and impacts (this information should be presented in Annex D).

☐ Yes ☐ No (If –and only if— NO is selected, a pop-up field should open for the Agency to provide an explanation)
OTHER REQUIREMENTS

Knowledge management
We confirm that an approach to Knowledge Management and Learning has been clearly described in the Project Description (Section B)

sensitive indicators in results framework (i.e. including the process to collect sex-
 disaggregated data and information on gender); include gender equality
considerations/gender-responsive measures and actions in relevant activities in
project components.

- **Environmental and Social Safeguards (ESS) related documents**: depending on types of
  ESS risks to be prepared (such as Environmental and Social Impact Assessment,
  Environmental and Social Management Framework/Plan, Indigenous Peoples Plan and
  Grievance Mechanism) and made public in country/location in relevant language/s
  (provide publication date and locations)

- **Private sector involvement mechanisms** (for non NGI projects: anticipated roles and
type of PS; this will already be central to the project document for NGI projects)

- **Knowledge Management Plan** - develop “Knowledge Management Approach” for the
  project and how it will contribute to the project’s overall impact, including plans to
  learn from relevant previous and ongoing projects; proposed tools and methods for
  knowledge exchange and learning; knowledge outputs; strategic communication plan;
  and budget and timeline.

- **Results**. Inclusion of final Core Indicator targets, along with a comprehensive results
  framework with indicator name, units of measurement, and baseline and target data.

- **Monitoring and Evaluation**. Include a budget, along with an explanation of monitoring
  arrangements and deliverables.

- **Institutional arrangements** (incl. reporting arrangements and flow of funds) and cross-
  sector integration approaches, as relevant

- **Sustainability**: Post-project financing sustainability plan

- **Co-finance**: Confirm amount and type of co-financing and the definition of investment
  mobilized

OFFEROR’S LETTER TO UNDP
CONFIRMING INTEREST AND AVAILABILITY
FOR THE INDIVIDUAL CONTRACTOR (IC) ASSIGNMENT

Date __________________________

United Nations Development Programme

Dear Sir/Madam:

I hereby declare that:

A) I have read, understood and hereby accept the Terms of Reference describing the duties and responsibilities of [indicate title of assignment] under the [state project title];

B) I have also read, understood and hereby accept UNDP’s General Conditions of Contract for the Services of the Individual Contractors;

C) I hereby propose my services and I confirm my interest in performing the assignment through the submission of my CV which I have duly signed and attached hereto as Annex 1;

D) In compliance with the requirements of the Terms of Reference, I hereby confirm that I am available for the entire duration of the assignment, and I shall perform the services in the manner described in my proposed approach/methodology which I have attached hereto as Annex 3 [delete this item if the TOR does not require submission of this document];

E) I hereby propose to complete the services based on the following payment rate: [please check the box corresponding to the preferred option]:

☐ An all-inclusive daily fee of [state amount in words and in numbers indicating currency]

☐ A total lump sum of [state amount in words and in numbers, indicating exact currency], payable in the manner described in the Terms of Reference.

F) For your evaluation, the breakdown of the abovementioned all-inclusive amount is attached hereto as Annex V;

G) I recognize that the payment of the abovementioned amounts due to me shall be based on my delivery of outputs within the timeframe specified in the TOR, which shall be subject to UNDP’s review, acceptance and payment certification procedures;

H) This offer shall remain valid for a total period of ___________ days [minimum of 90 days] after the submission deadline;
I) I confirm that I have no first degree relative (mother, father, son, daughter, spouse/partner, brother or sister) currently employed with any UN agency or office [disclose the name of the relative, the UN office employing the relative, and the relationship if, any such relationship exists];

J) If I am selected for this assignment, I shall [please check the appropriate box]:

☐ Sign an Individual Contract with UNDP;

☐ Request my employer [state name of company/organization/institution] to sign with UNDP a Reimbursable Loan Agreement (RLA), for and on my behalf. The contact person and details of my employer for this purpose are as follows:

K) I hereby confirm that [check all that applies]:

☐ At the time of this submission, I have no active Individual Contract or any form of engagement with any Business Unit of UNDP;

☐ I am currently engaged with UNDP and/or other entities for the following work:

<table>
