

Additional Clarifications

RFP NCE 006 2022 – RFP for the establishment of an LTA to provide digital product design, testing and developing services to meet the needs of the UNDP Nature, Climate and Energy portfolio

No	Question	Response
87	Let's say we manage to get the bid do we have to be familiar with Climate and Energy or we just have to develop services where the information/Data can be stored.	<p>The bidder is expected to provide digital product design and development services, and technical expertise in climate and energy is not a hard requirement but a plus.</p> <p>Please note that eligibility and minimum qualification requirements for the assignment are outlined in Section 4 in the RFP.</p>
