Background

Established in 1992, following the Rio Earth Summit, the Global Environmental Facility Small Grants Programme (GEF/SGP) is a corporate programme of the Global Environment Facility and implemented by United Nations Development Programme (UNDP). The GEF/SGP supports local communities at the grassroots level to undertake projects that are aimed at restoring and conserving the environment while at the same time enhancing people’s wellbeing and...
livelihoods. The projects supported are within the GEF focal areas of; biodiversity, land degradation, climate change, sustainable forest management, international waters, chemicals and Persistent Organic Pollutants (POPs).

The GEF Small Grants Programme provides Civil Society Organizations (CSOs) in developing and transitioning countries with grants and technical guidance to enable them to tackle global environmental challenges while addressing local sustainable development needs. In Operation Phase (OP) 7, grant-making focuses on the strategic initiatives of; a) community-based conservation of threatened ecosystems and species, b) sustainable agriculture and fisheries, and food security, c) low-carbon energy access co-benefits and d) local to global coalitions for chemicals and waste management. With these environment-centered “grant projects” the Programme also seeks to generate sustainable livelihoods and reduce poverty in the world’s neediest countries and regions. With the notion “community action with global impact”, the Programme recognizes grassroots communities as custodians of their environments, they are better placed to tackle global environmental problems and come up with innovative and sustainable solutions.

In supporting the Government to drive her sustainable development agenda, the GEF Small Grants Programme partnered with Southern Africa Development Community to implement the Great Green Wall Initiative (GGWI). The overall goal of the Great Green Wall Sustainable Land Management (SLM) and Sustainable Forest Management (SFM) Innovation Programme is to demonstrate and generate lessons and good practices on how related projects could actively promote participation of women and youth, Non-State Actors (Civil Society Organizations - CSOs) therefore have concrete results on both environment and socio-economic issues. Efforts to achieve Sustainable Land Management (SLM) bring benefits to the other conventions on climate change, the United Nations Framework Convention on Climate Change (UNFCCC) and the United Nations Convention on Biological Diversity (UNCBD).

GEF-SGP invites legally registered Civil Society Organizations, Non-Governmental Organisations or Community Based Organisations in Kweneng District, Nlapkhwane and Masukwane villages to submit innovative proposals that contributes GGWI National Action Programme (NAP) objective of improvement of critical infrastructure for enhanced and sustainable socio-economic development and environmental sustainability.    - Socio-economic or alternative livelihoods activities to be carried out;
   - Clarity of roles and benefits for women and men in the community through the project;
   - Activities used to include significant participation of vulnerable groups;
   - Communications strategy of the project to promote public awareness;
   - Project plan to produce policy impact and the intended results;
   - The knowledge management strategy of the project

b. Project risks, monitoring and evaluation
   - Risks to successful implementation;
   - Monitoring, evaluation plan and indicators;
   - Sustainability of results achieved.

CSOs, Academic and Research Institutions obtaining a minimum of 70% of the obtainable points of 100 in the technical evaluation will be eligible and would be considered for the financial evaluation.
Stage 3: Financial stage
As per the proposal format, the assessment will be based on the project budget:
a. Does the project outline a clear realistic budget that is consistent with the activities that are clearly linked to the project aim, objectives and resolution of the problem at hand;

b. The budget should include all costs associated with managing and administering the project. In particular, include the cost of monitoring and evaluation;

c. As per the Standard Operating Procedures for the Programme; only 5% to 15% can be budgeted for administrative fees/running costs for the project.

d. The budget should not exceed the Pula amount equivalent to USD 50,000.00.

Stage 4: Feedback and Notification
a. Upon completion of the assessment process the Technical Advisory Group will recommend proposals to the National Steering Committee. The NSC will further review, approves and recommend proposals to the United Nations Development Programme Resident Representative for finalization of award and signing of a Memorandum of Agreement.

b. The proposals that are technical responsive, having attained at least 70% in the technical assessment will be recommended for grant award and the CSOs will receive written notification of such;

c. CSOs, Academic and Research Institutions with proposals attaining less than 70% in the technical assessment will be unsuccessful and will receive written notification as well.
