A two-stage procedure is utilized in evaluating the submissions, with evaluation of the technical components being completed prior to any price proposals being opened and compared. The price proposal will be opened only for submissions that passed the minimum technical score of 70% of the obtainable score of 1000 points in the evaluation of the technical component.

The technical component is evaluated on the basis of its responsiveness to the Term of Reference (TOR).

Technically qualified consultants may be selected for an interview before financial evaluation.

Maximum 1000 points will be given to the lowest offer and the other financial proposals will receive the points inversely proportional to their financial offers. i.e. \( S_f = 1000 \times \frac{F_m}{F} \), in which \( S_f \) is the financial score, \( F_m \) is the lowest price and \( F \) the price of the submission under consideration.

The weight of technical points is 70% and financial points is 30%.

Individual consultants will be evaluated based on Cumulative analysis, the award of the contract will be made to the individual consultant whose offer has been evaluated and determined as:

a) responsive/compliant/acceptable, and
b) Having received the highest score out of a pre-determined set of weighted technical and financial criteria specific to the solicitation.
8. Contract

“Lump-sum” Individual Contract will be applied for freelance consultant
“Lump-sum” RLA will be applied for consultant assigned by firm/institution/organization

Documents required before contract signing:
- Personal History
- International consultant whose work involves travel is required to complete the course on Basic Security in the Field at https://training.dss.un.org/consultants and submit certificate to UNDP before contract issuance.
- Full medical examination and Statement of Fitness to work for consultants from and above 62 years of age and involve travel. (This is not a requirement for RLA contracts).
- Release letter in case the selected consultant is government official.

Contract Type: Individual Contract (IC)

Duration: 23 working days each in October-November 2014

UNDP-GEF Midterm Review Terms of Reference

1. INTRODUCTION

This is the Terms of Reference (ToR) for the UNDP-GEF Midterm Review (MTR) of the full sized project titled “Removing Barriers Hindering Protected Area Management Effectiveness in Viet Nam” (PIMS#3695) implemented through the Ministry of Natural Resources and Environment, which is to be undertaken in 2014. The project started on the Project Document signed on 22 December 2010 and is in its fourth year of implementation. The project planned for MTE in 2013, however, due to various reasons, the MTE could not be finalized and this MTR process was initiated for 2014 related to the submission of the Project Implementation Report (PIR). This ToR sets out the expectations for this MTR. The MTR process must follow the guidance outlined in the document Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects.

2. PROJECT BACKGROUND INFORMATION

The project was designed to secure a sustainably financed PA system to conserve globally significant biodiversity”. This will contribute to the broader goal “Effective conservation of biodiversity in Vietnam”. In order to achieve the project objective, a number of outcomes will be secured including: (1) A comprehensive and harmonized legal and policy framework supports sustainable PA financing; (2) Clear and harmonized institutional mandates and processes support sustainable PA financing mechanisms; (3) Knowledge and experience of sustainable financing options developed through demonstrations; (4) Information on biodiversity and PA status supports PA management and builds public support for the PA system.

The project has three demonstration clusters, namely (1) Xuan Thuy National Park (NP) – TienHai Natural Reserve, (2) Cat Ba National Park – BaiTu Long National Park, (3) Bidoup – Nui Ba National Park – Chu Yang Sin National Park. Of which, XuanThuy NP, Cat Ba NP, and Bidoup – Nui Ba NP are being selected/considered as three main demonstration sites of the Project. The Project Document signed between the Vietnamese Government and UNDP Viet Nam Country Office is available at

3. OBJECTIVES OF THE MTR

The MTR will assess progress towards the achievement of the project objectives and outcomes as specified in the Project Document, and assess early signs of project success or failure with the goal
of identifying the necessary changes to be made in order to set the project on-track to achieve its intended results. The MTR will also review the project’s strategy, its risks to sustainability.

4. MTR APPROACH & METHODOLOGY

The MTR must provide evidence based information that is credible, reliable and useful. The MTR team will review all relevant sources of information including documents prepared during the preparation phase (i.e. PIF, UNDP Initiation Plan, UNDP Environmental & Social Safeguard Policy, the Project Document, project reports including Annual Project Review/PIRs, project budget revisions, lesson learned reports, national strategic and legal documents, and any other materials that the team considers useful for this evidence-based review). The MTR team will review the baseline GEF focal area Tracking Tool submitted to the GEF at CEO endorsement, and the midterm GEF focal area Tracking Tool that must be completed before the MTR field mission begins.

The MTR team is expected to follow a collaborative and participatory approach ensuring close engagement with the Project Team, government counterparts (the GEF Operational Focal Point), the UNDP Country Office(s), UNDP-GEF Regional Technical Advisers, and other key stakeholders.

Engagement of stakeholders is vital to a successful MTR. Stakeholder involvement should include interviews with stakeholders who have project responsibilities, including but not limited to MONRE, MARD, National Parks- the executing agencies, senior officials and task team/ component leaders, key experts and consultants in the subject area, Project Board, project stakeholders, academia, local government and CSOs, etc. Additionally, the MTR team is expected to conduct field missions to National Parks, Cat Ba, Xuan Thuy and Bi Doup- Nui Ba National Parks, the main project demonstration sites.

The final MTR report should describe the full MTR approach taken and the rationale for the approach making explicit the underlying assumptions, challenges, strengths and weaknesses about the methods and approach of the review.

5. DETAILED SCOPE OF THE MTR

The MTR team will assess the following four categories of project progress. See the Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects for extended descriptions.

i. Project Strategy

Project design:

- Review the problem addressed by the project and the underlying assumptions. Review the effect of any incorrect assumptions or changes to the context to achieving the project results as outlined in the Project Document.

- Review the relevance of the project strategy and assess whether it provides the most effective route towards expected/intended results. Were lessons from other relevant projects properly incorporated into the project design?

---

1 For ideas on innovative and participatory Monitoring and Evaluation strategies and techniques, see UNDP Discussion Paper: Innovations in Monitoring & Evaluating Results, 05 Nov 2013.
• Review how the project addresses country priorities. Review country ownership. Was the
project concept in line with the national sector development priorities and plans of the country
(or of participating countries in the case of multi-country projects)?

• Review decision-making processes: were perspectives of those who would be affected by
project decisions, those who could affect the outcomes, and those who could contribute
information or other resources to the process, taken into account during project design
processes?

• Review the extent to which relevant gender issues were raised in the project design. See Annex
9 of Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects for
further guidelines.

• If there are major areas of concern, recommend areas for improvement.

Results Framework/Logframe:

• Undertake a critical analysis of the project’s logframe indicators and targets, assess how
“SMART” the midterm and end-of-project targets are (Specific, Measurable, Attainable,
Relevant, Time-bound), and suggest specific amendments/revisions to the targets and indicators
as necessary.

• Are the project’s objectives and outcomes or components clear, practical, and feasible within its
time frame?

• Examine if progress so far has led to, or could in the future catalyse beneficial development
effects (i.e. income generation, gender equality and women’s empowerment, improved
governance etc...) that should be included in the project results framework and monitored on an
annual basis.

• Ensure broader development and gender aspects of the project are being monitored effectively.
Develop and recommend SMART ‘development’ indicators, including sex-disaggregated
indicators and indicators that capture development benefits.

ii. Progress Towards Results

Progress Towards Outcomes Analysis:

• Review the logframe indicators against progress made towards the end-of-project targets using
the Progress Towards Results Matrix and following the Guidance For Conducting Midterm
Reviews of UNDP-Supported, GEF-Financed Projects; colour code progress in a “traffic light
system” based on the level of progress achieved; assign a rating on progress for each outcome;
make recommendations from the areas marked as “Not on target to be achieved” (red).

In addition to the progress towards outcomes analysis:
- Compare and analyse the GEF Tracking Tool at the Baseline with the one completed right before the Midterm Review.
- Identify remaining barriers to achieving the project objective in the remainder of the project.
- By reviewing the aspects of the project that have already been successful, identify ways in which the project can further expand these benefits.

### iii. Project Implementation and Adaptive Management

**Management Arrangements:**
- Review overall effectiveness of project management as outlined in the Project Document. Have changes been made and are they effective? Are responsibilities and reporting lines clear? Is decision-making transparent and undertaken in a timely manner? Recommend areas for improvement.
- Review the quality of execution of the Executing Agency/Implementing Partner(s) and recommend areas for improvement.
- Review the quality of support provided by the GEF Partner Agency (UNDP) and recommend areas for improvement.

**Work Planning:**
- Review any delays in project start-up and implementation, identify the causes and examine if they have been resolved.

3 Populate with data from the Project Document
4 If available
5 Colour code this column only
6 Use the 6 point Progress Towards Results Rating Scale: HS, S, MS, MU, U, HU
• Are work-planning processes results-based? If not, suggest ways to re-orientate work planning to focus on results?
• Examine the use of the project’s results framework/logframe as a management tool and review any changes made to it since project start.

Finance and co-finance:
• Consider the financial management of the project, with specific reference to the cost-effectiveness of interventions.
• Review the changes to fund allocations as a result of budget revisions and assess the appropriateness and relevance of such revisions.
• Does the project have the appropriate financial controls, including reporting and planning, that allow management to make informed decisions regarding the budget and allow for timely flow of funds?
• Informed by the co-financing monitoring table to be filled out, provide commentary on co-financing: is co-financing being used strategically to help the objectives of the project? Is the Project Team meeting with all co-financing partners regularly in order to align financing priorities and annual work plans?

Project-level Monitoring and Evaluation Systems:
• Review the monitoring tools currently being used: Do they provide the necessary information? Do they involve key partners? Are they aligned or mainstreamed with national systems? Do they use existing information? Are they efficient? Are they cost-effective? Are additional tools required? How could they be made more participatory and inclusive?
• Examine the financial management of the project monitoring and evaluation budget. Are sufficient resources being allocated to monitoring and evaluation? Are these resources being allocated effectively?

Stakeholder Engagement:
• Project management: Has the project developed and leveraged the necessary and appropriate partnerships with direct and tangential stakeholders?
• Participation and country-driven processes: Do local and national government stakeholders support the objectives of the project? Do they continue to have an active role in project decision-making that supports efficient and effective project implementation?
• Participation and public awareness: To what extent has stakeholder involvement and public awareness contributed to the progress towards achievement of project objectives?

Reporting:
• Assess how adaptive management changes have been reported by the project management and shared with the Project Board.
• Assess how well the Project Team and partners undertake and fulfil GEF reporting requirements (i.e. how have they addressed poorly-rated PIRs, if applicable?)
• Assess how lessons derived from the adaptive management process have been documented, shared with key partners and internalized by partners.

Communications:
• Review internal project communication with stakeholders: Is communication regular and effective? Are there key stakeholders left out of communication? Are there feedback mechanisms when communication is received? Does this communication with stakeholders
contribute to their awareness of project outcomes and activities and investment in the sustainability of project results?

• Review external project communication: Are proper means of communication established or being established to express the project progress and intended impact to the public (is there a web presence, for example? Or did the project implement appropriate outreach and public awareness campaigns?)

• For reporting purposes, write one half-page paragraph that summarizes the project’s progress towards results in terms of contribution to sustainable development benefits, as well as global environmental benefits.

iv. Sustainability

• Validate whether the risks identified in the Project Document, Annual Project Review/PIRs and the ATLAS Risk Management Module are the most important and whether the risk ratings applied are appropriate and up to date. If not, explain why.

• In addition, assess the following risks to sustainability:

Financial risks to sustainability:

• What is the likelihood of financial and economic resources not being available once the GEF assistance ends (consider potential resources can be from multiple sources, such as the public and private sectors, income generating activities, and other funding that will be adequate financial resources for sustaining project’s outcomes)?

Socio-economic risks to sustainability:

• Are there any social or political risks that may jeopardize sustainability of project outcomes? What is the risk that the level of stakeholder ownership (including ownership by governments and other key stakeholders) will be insufficient to allow for the project outcomes/benefits to be sustained? Do the various key stakeholders see that it is in their interest that the project benefits continue to flow? Is there sufficient public / stakeholder awareness in support of the long term objectives of the project? Are lessons learned being documented by the Project Team on a continual basis and shared/ transferred to appropriate parties who could learn from the project and potentially replicate and/or scale it in the future?

Institutional Framework and Governance risks to sustainability:

• Do the legal frameworks, policies, governance structures and processes pose risks that may jeopardize sustenance of project benefits? While assessing this parameter, also consider if the required systems/ mechanisms for accountability, transparency, and technical knowledge transfer are in place.

Environmental risks to sustainability:

• Are there any environmental risks that may jeopardize sustenance of project outcomes?

Conclusions & Recommendations

The MTR team will include a section of the report setting out the MTR’s evidence-based conclusions, in light of the findings.  

7 Alternatively, MTR conclusions may be integrated into the body of the report.
Recommendations should be succinct suggestions for critical intervention that are specific, measurable, achievable, and relevant. A recommendation table should be put in the report’s executive summary. See the Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects for guidance on a recommendation table.

The MTR team should make no more than 15 recommendations total.

Ratings

The MTR team will include its ratings of the project’s results and brief descriptions of the associated achievements in a MTR Ratings & Achievement Summary Table in the Executive Summary of the MTR report. See Annex E for ratings scales. No rating on Project Strategy and no overall project rating is required.

*The final MTR report must be in English. If applicable, the Commissioning Unit may choose to arrange for a translation of the report into a language more widely shared by national stakeholders.

8. MTR ARRANGEMENTS

The principal responsibility for managing this MTR resides with the UNDP Vietnam CO.

The UNDP Vietnam CO will contract the consultants and ensure the timely provision of per diems and travel arrangements within the country for the MTR team. The Project Team will be responsible for liaising with the MTR team to provide all relevant documents, set up stakeholder interviews, and arrange field visits. Field visit will be arranged by the Project Management Unit to the project sites.

9. TEAM COMPOSITION

A team of two independent consultants will conduct the MTR – one International Consultant works as a team leader (with experience and exposure to projects and evaluations in other regions globally) and one national consultant as a team expert. The consultants cannot have participated in the project preparation, formulation, and/or implementation (including the writing of the Project Document) and should not have a conflict of interest with project’s related activities.

The selection of consultants will be aimed at maximizing the overall “team” qualities in the following areas:

| International Consultant |
|-------------------------------------------------|--------------|
| **Criteria** | **Score** |
| 12. Recent experience with result-based management evaluation methodologies | 100 |
| 13. Experience applying SMART indicators and reconstructing or validating baseline scenarios | 100 |
| 14. Competence in adaptive management, as applied to biodiversity conservation | 100 |
| 15. Experience working with the GEF preparation/implementation/evaluations | 200 |
| 16. Experience working in Vietnam | 20 |
| 17. Work experience in relevant to biodiversity conservation, protected areas management/financing for at least 10 years | 80 |
| 18. Demonstrated understanding of issues related to gender and biodiversity conservation; experience in gender sensitive evaluation and analysis | 100 |
| 19. Excellent communication skill | 50 |
| 20. Demonstrable analytical skills | 100 |
| 21. Project evaluation/review experiences within United Nations system will be considered an asset; | 50 |
| 22. A Master’s degree in environmental sciences/economics, biodiversity conservation, or other closely related field | 100 |
| | 1000 |
### 10. PAYMENT MODALITIES AND SPECIFICATIONS

10% of payment upon approval of the final MTR Inception Report  
40% upon submission of the draft MTR report  
50% upon finalization of the MTR report

### 11. APPLICATION PROCESS

**Recommended Presentation of Proposal:**

a) **Letter of Confirmation of Interest and Availability** using the template provided by UNDP;

b) **CV** and a **Personal History Form** (P11 form);

c) **Brief description of approach to work/technical proposal** of why the individual considers him/herself as the most suitable for the assignment, and a proposed methodology on how they will approach and complete the assignment; (max 1 page)

d) **Financial Proposal** that indicates the all-inclusive fixed total contract price and all other travel related costs (such as flight ticket, per diem, etc), supported by a breakdown of costs, as per template attached to the Letter of Confirmation of Interest template. If an applicant is employed by an organization/company/institution, and he/she expects his/her employer to charge a management fee in the process of releasing him/her to UNDP under Reimbursable Loan Agreement (RLA), the applicant must indicate at this point, and ensure that all such costs are duly incorporated in the financial proposal submitted to UNDP.

---

8 Engagement of the consultants should be done in line with guidelines for hiring consultants in the POPP:  
https://info.undp.org/global/popp/Pages/default.aspx

10 http://www.undp.org/content/dam/undp/library/corporate/Careers/P11_Personal_history_form.doc
All application materials should be submitted to Huynh.huong.thanh@undp.org indicating the following reference “Consultant for Midterm Review” by 01 October 2014. Incomplete applications will be excluded from further consideration.

**Criteria for Evaluation of Proposal:** Only those applications which are responsive and compliant will be evaluated. Offers will be evaluated according to the Combined Scoring method – where the educational background and experience on similar assignments will be weighted at 70% and the price proposal will weigh as 30% of the total scoring. The applicant receiving the Highest Combined Score that has also accepted UNDP’s General Terms and Conditions will be awarded the contract.

ToR ANNEX D: UNEG Code of Conduct for Evaluators/Midterm Review Consultants

Evaluators/Consultants:
1. Must present information that is complete and fair in its assessment of strengths and weaknesses so that decisions or actions taken are well founded.
2. Must disclose the full set of evaluation findings along with information on their limitations and have this accessible to all affected by the evaluation with expressed legal rights to receive results.
3. Should protect the anonymity and confidentiality of individual informants. They should provide maximum notice, minimize demands on time, and respect people’s right not to engage. Evaluators must respect people’s right to provide information in confidence, and must ensure that sensitive information cannot be traced to its source. Evaluators are not expected to evaluate individuals, and must balance an evaluation of management functions with this general principle.
4. Sometimes uncover evidence of wrongdoing while conducting evaluations. Such cases must be reported discreetly to the appropriate investigative body. Evaluators should consult with other relevant oversight entities when there is any doubt about if and how issues should be reported.
5. Should be sensitive to beliefs, manners and customs and act with integrity and honesty in their relations with all stakeholders. In line with the UN Universal Declaration of Human Rights, evaluators must be sensitive to and address issues of discrimination and gender equality. They should avoid offending the dignity and self-respect of those persons with whom they come in contact in the course of the evaluation. Knowing that evaluation might negatively affect the interests of some stakeholders, evaluators should conduct the evaluation and communicate its purpose and results in a way that clearly respects the stakeholders’ dignity and self-worth.
6. Are responsible for their performance and their product(s). They are responsible for the clear, accurate and fair written and/or oral presentation of study limitations, findings and recommendations.
7. Should reflect sound accounting procedures and be prudent in using the resources of the evaluation.
